

A SURE WINNER

THE one SURE WINNER in every "get-rich-quick" proposition is the man who promotes the company. He gets "his" regardless of the outcome—you can count on that.

Does the stock salesman tell you what commission he is paid to sell you your stock, and before buying would it not be the part of wisdom to have your prospective purchase checked up through your bank?

If you contemplate making an investment of any kind, feel free to call upon our officers at any time for consultation.

Their knowledge and experience gained from years of contact with varied business enterprises may be of help to you.

Shell of the Ages

A large fragment of a mussel shell, computed to be about 100,000,000 years old, has been found in New Zealand. Judged by the measurements made on this and other fragments found elsewhere, it is estimated that the mussels of its remote date, apparently the hey day of mussels, grew to be as much as three feet in length.
