IDAHO POWER COMPANY has paid dividends on its Preferred Stock, every three months, without a break, ever since the first shares were issued over twelve years ago.

IDAHO POWER COMPANY maintains a department at its offices to assist and advise local stockholders who may wish to sell their shares.

Brief Facts About IDAHO POWER COMPANY PREFERRED STOCK

The stock is a SAFE INVESTMENT—NOT a speculation.

The business of the company is to supply a great public need—Electricity. There is a steady and growing demand for this service. It is a necessity of every-day life—and is used daily in bad times as well as good times.

The company is actively engaged in farm electrification, extending its power lines into new rural territories and adding new consumers for its product. This rural electrification program is aiding in the development and prosperity of the territory and in raising the standard of living conditions.

During the past two years over 600 miles of rural power lines have been built and more than 3000 additional customers connected to these lines.

The money to make extensions, improvements and additions to the company's property must be raised through the sale of the company's securities—such as this Preferred Stock.

Your stock is safely registered in your name. Your dividend money is paid to you by check every three months: \$1.50 per share on February 1, May 1, August 1, and November 1.

Over 2400 Idaho and Oregon people have found our Preferred Stock the answer to the question, "Where can I invest my savings so that they will be safe and pay me a good return?"

The income or money you will receive as dividends from this investment is free from the Normal Federal Income Tax.
