on BOTH upper and lower bowel, remov-
ing poisonous waste you never knew was

Good in Fighting Evil

Evil, once manfully fronted, ceases
to be evil; there is generous battle
hope in place of dead, passive misery;
the evil itself has become a kind of
good.—Carlyle.

The Good Die Young

After reading newspaper accounts
of the movements of the adult popula-
tion, one is forced to the conclusion
that the good are dying as young as
ever.—Terre Haute Tribune.

Nautical Term

The "high seas" is any part of the
ocean not within the territorial jurisdic-
tion of any country. According to
the English common law, "high seas"
means that portion of the sea which
washes the open coast. A vessel fly-
ing in an open roadstead of a foreign
country is upon the high seas.

Expression Had Meaning

The expression "smart as a Phila-
delphia lawyer" is traced to the fact
that in the early days of the history
of Pennsylvania there were an ex-
traordinary number of lawyers in
Philadelphia, many of whom were
noted for their brilliant intellect.

Not Really Alloys

The bureau of standards says that
copper and lead may be considered as
not forming alloys, the amount of lead
that copper will hold in solution be-
ing exceedingly minute. Such mix-
tures of copper and lead as are used
should be considered as mechanical
mixtures and not as alloys.

Fish Favorite Mink Diet

The mink, Lutreola vison, is one of
the staple fur bearers, and ranges over
much of wooded North America, says
Nature Magazine. With the form and
general habits of the weasel, it has
the added ability of aquatic skill. Its
favorite food is fish.

The Mind and Fatigue
It is generally agreed by psycholo-
gists that the threshold of highest
mentality is reached at about 11 a. m.
One authority says that tests made in
various colleges prove that the mind
is less active when fatigued.

GASOLINE IKE

Says Gasoline Isaac: "Most driv-

why smokers
graduate
to

CAMELS—

The phrase "I've
Graduated to Camels" originated
with a Camel smoker. It expresses
the experience of millions who
through Camels have learned
to know real smoking pleasure.

As taste in smoking develops, it naturally leads toward better quality.
New smokers may not be critical but when they once experience the true
mildness and surpassing fragrance of the Camel blend, they realize that
here is a real superiority. It is for smokers of such discernment that Camels
are made . . . for them the choicest tobaccos are selected . . . and this qual-
ity is maintained for the millions who know genuine smoking pleasure.

when they learn the difference
they flock to
