The First Census

Moses is credited with being the first ruler to count noses in his flock. Solomon did likewise, some 3,000 years ago. After nine months and twenty days the census taker reported 1,300,000 able bodied men among the people of Israel and Judea.—The Country Home.

Many Have Same Thought

One often hears the saying, "The sin is not in the sining but in the being found out." "Scandal is the greatest part of the offense," recites Dryden, the poet, and Moliere says, "The harm is only the noise that one makes." A popular eleventh commandment is, "Thou shalt not be found out." The French put the following twist on it: "Guard yourself from being found out so that you may be at fault freely."—Boston Globe.
