Scotland Yard Cars Now Equipped With Wireless

London.—Scotland Yard is now able to talk to its flying squads while the latter are traveling at eighty miles an hour.

This has become possible by the installation of a new type of radio transmitter and receiver that operates on an exceedingly short wave length in flying squadron autos.

At the Yard special receivers have been fitted in sound-proof cabinets so that even very weak signals from the flying squads' cars can be magnified and operate a loud speaker.

Spanish Dancer Says U. S. Women's Legs Beautiful

Seattle.—Women's legs, not skyscrapers or industrial achievements, are the most remarkable things in the United States, in the opinion of La Argentina, Spanish dancer, who came here for a recital.

"Ooo—such beautiful legs," she sighed as she watched young American women in the lobby of a hotel. "Never have I seen such legs as the American women have. They impress me more than anything else in your magnificent country."

Five Years for 3 Cents
Minneapolis.—A robbery in which he obtained three cents brought Jack Galloway, twenty-one, a sentence of five years in the St. Cloud reformatory recently in District court. Galloway fainted when he heard the sentence.

Human Vocal Cords
The length of the vocal cords of men is estimated at seven-twelfths of an inch. This is a factor in the pitch of voices. It is highly probable that a slight difference also exists between bass and tenor, and between contralto and soprano, but it is difficult to measure with sufficient accuracy.

Dividend Printing

There is one kind of printing that you want—printing that pays a dividend on the investment.

A letterhead with right sort of type properly balanced is a real business asset. It wins the approval of the person receiving your letter, and while he is in this frame of mind your letter is read.

The same reasoning applies to any other job of printing. Neatness, the right weight and kind of paper, the color of the ink, the selection of the type, all play an important part in the production of dividend printing.

We are equipped to give you that kind of printing. Let us prove it to you.

Writes Articles

Dr. Arnold Bennett Hall, president of the University of Oregon, has written a series of articles on "Education and the State," which will appear shortly in this newspaper. Dr. Hall is a nationally known authority on education and social science, and has written a number of books on these subjects which have brought him much favorable comment. The series will take up the problems of education as they apply specifically to Oregon.
