Says WILL ROGERS

BEVERLY HILLS—Well all I know is just what I read in the papers or what I see as I prowled from here to there.

Every time I get a new picture finished why I kinder feel the itch to get out to some new place or make some sort of a little trip. Anyway a couple of weeks ago, we had finished "As young as you feel," based on George Ade's old play "Father and the Boys." I was going to take a little trip down in Central America, and then they kept me at home for fear there might be some re-takes on it. You know when we get one made we then take them out and show em, sometimes at a couple of different towns to see if they are fit to release and sometimes we have to change something or make some new scenes.

The way I had it planned I would have been in Managua, Nicaragua on the day after the quake, was going to stop over and see what the Marines was doing down there, and I would have been on the spot for quite a little news, for they sure have had it tough down there. Well we took the thing out and tried it in San Bernardino, Cal., and the customers giggled quite a bit, so that let me get away. They said, the Director and the Studio Officials that they didn't think we could make it any worse if we tried, so I jumped on the old Aerial Rattler, and left from there. Honest if people knew how fast and comfortable and safe it is on a Plane they would never travel any other way.

You know this Radio had made it mighty fine to find out about what's ahead. You see its never the weather you take off in its the weather where you have to go through after you take off. I remember one trip on our late tour with Captain Frank Hawkes when we took off one day in a snow storm in New Mexico when you just couldn't see a thing, not two hundred feet, and it was that way flying blind for the next hour, but he had heard that it was clear in Albuquerque where we were going. So its how is the weather ahead of you home than how it is where you are.

I left Los Angeles from over in San Fernando valley on the American Airlines just at daybreak on Easter morning. They were having Easter sunrise services in the Hollywood Bowl. Well the Sunrise bunch didn't get much started that day I am afraid. You know California can get more people into something free than any place on earth. Course that particular thing was a very meritorious cause, and is a good idea if you live in a country where you can depend on the weather.

Speaking of services and religious gatherings why we been missing Almee lately. She is away off prowling around some place, and we can't hardly figure her out. Her Church is running, but it without Almee is like the modern Girl without her lipstick, it just aint her at all. With Almee away for all this stretch, and Clara Bow on her best behaviour and me behaving myself, why there just is not much scandal out there at all. Doug Fairbanks is over in India getting even with some India Royalty that visited him one time. He is supposed to be shooting Tigers, but anybody that knows Doug knows that he never hunted in his life, he never shot anything, but if he can come back with some pictures with the right foot up on the neck of a dead Tiger or Elephant why it will be all right.

Mary is kinder ranting around. There is some club out there called the Mayfair, that has some sort of a shindig every week, and they put on fights, I mean impromptu fights, people get mad at each other after they get there, and they always open and close their dance with a fight. Well we have all been shocked to death to find Mary among, (Not the fighters) but among the guests, she has a ringside table at every public brawl they have. Doug has got to come home and put her to work, keep her out of devilment.

Chick Sale is out our way. I am figuring with him to put me in one up at the Ranch. He is working out the design now. You would be surprised the trade that he has, he has just practically quit acting, and is specializing entirely. It was too bad; he is a fine Comedian too, one of the best that ever left the stage. But this new work is high class, and not hard. Its mostly just consulting, and working out architectural plans. I wish I could hit on some side line, that would stop me having to just keep digging away day after day. Its certainly made a fortune for him. You would be surprised at his prices. He has an office in Hollywood, and is doing practically all Beverly Hills work. You just have to have em done by Sales of they want be patronized. Lucky Guy.

Like a Symphony . . . the best Gasoline is Blended

IT'S primer knowledge to the orchestra conductor that each group of instruments in the ensemble brings a necessary influence into the symphony's finished blend of tone. In the unaccompanied "oompah" of the bass horns the overlay of melody provided by singing violins and mellow woodwinds is lacking. All must be blended by the baton of the conductor according to the expert formula of the composer before the perfection of the symphony is achieved.

CONOCO long has realized that harmony is as necessary to gasoline as to music. So CONOCO gasoline is blended—and balanced. One type of gasoline is no more satisfactory than is an orchestra of bass horns. So CONOCO refiners take the three types

containing the elements of the perfect fuel and deftly combine them until they blend in absolute harmony.

That's why CONOCO contains: Natural Gasoline, for quick starting . . . Straight-run Gasoline, for power and long mileage . . . Cracked Gasoline, for its anti-knock qualities.

No single type of gasoline can contain all these qualities. They are present, though, in CONOCO Gasoline . . . blended there into a symphonic, harmonious whole, with CONOCO's master refiners wielding the baton. For, after all, it's in knowing how. That's why some musical directors, as well as some refiners, achieve fame.

You'll find this triple-test gasoline with the balanced-blend wherever you see the CONOCO Red Triangle.

Portuguese Fear Census

Census taking in Portugal spells terror to the heart of the popular masses. In an effort to set at rest people who see in the census official the forbidding figure of the tax collector, a campaign has begun to teach the significance and value of the census. After sermons in churches, hand bills, posters and newspaper stories had failed to enlighten the public, authorities had thousands of bills thrown from airplanes.

Few Persons Get Full Advantage of Reading

That there are several million persons in the United States beyond the age of childhood who are illiterate, contradicts the statement put by Shakespeare in the mouth of Dogberry, that "to read and write comes by nature." There are other millions, nominally literate, who yet read so little and with such pain, that to them books are as an instrument upon which they have not learned to play. Prof. Charles H. Judd, of the University of Chicago, emphasized this in speaking of adult education at the convocation of the University of the State of New York: "Until people are ready to cultivate reading as they would cultivate the ability to play a musical instrument or to play golf, they will never be able to use the best sources of information with readiness and full advantage."

Reading aloud is recognized as an art, but reading to one's own mind is also an art, which can be developed, as other arts, by incessant practice. If he were to give as much attention to the cultivation of this skill as the musician gives to his art, the artisan with leisure and a library would be richer than the man whose profession or vocation leaves him no time to read swiftly and thoughtfully in the literature which is "the organ of the race mind" and whose chief function is the fusion of nations and the "enfranchisement of the soul" of the individual.—New York Times.

Wondering

"These shoes were made in prison."

It is the library where the books are hit or miss that has been the most read.

What He Meant

"You advertise for a man who can ring the bell?"

"Yes."

"What is it?"

"House-to-house canvassing."

Bad Stomach Cause of Bad Skin

You can't expect to have a good clear skin if your stomach is weak and disordered.

Undigested food sends poisons through the body, pimples appear—skin grows sallow and loses color. But these troubles will end quickly and skin clear up if you will start today taking Tanlac.

Tanlac is made from herbs, barks and roots. A tablespoonful before each meal stimulates the digestion naturally so that you can digest what you eat. And when your stomach is in good shape again watch how quickly skin begins to clear up. At your druggist's. Money back if it doesn't help you.

Trick of the Trade

Robinson—Was it successful—enough that ex-burglar as your chauffeur?

Smithers—Rather! I've never found a finger mark on the car yet.

Fore!

"Come on, Joe, I'm gonna try my new outboard motor!"

"Hm-m-m—putting practice, eh?"
