SECOND HAY HEAVY
IN APPLE VALLEY

Several ladies from Nyssa were present. An impromptu program was given and a delicious lunch of sandwiches, salads, pickles, cakes and lemonade was served cafeteria style.

"It's 120 in the shade and 140 in the sun at Boulder dam canyon," writes Nick Darchuk, employee on the new project, formerly of Nyssa. Boulder dam is the hottest place in my experience and I hope I find no hotter. Death claimed two women in the government camp last week.

"The intense heat is also blamed for numerous accidental deaths. It scarcely seems possible but five men at work upon the canyon walls, dropped from the cliff and were drowned in the river

TOGGERY BILL

GOOD CLOTHS FOR MEN
ONTARIO OREGON

....They were talking about his wife

He listened.

"My dear, she's so careless, she never pays any bills...and he makes a good salary, too!"

"Oh, well," said the other, "maybe it's careless to forget to pay for several months, but no real harm is done."

"No harm done?...Listen, I'll tell you just how much harm there really is. I know—my father was a credit manager."

This promised to be interesting, so Mr. Stark listened.

"Jane, there's not one of us who hasn't been helped out some time

or other by that good old stand-by—Credit! And I think it's up to everybody to play fair with creditors by paying as promptly as they should.

"Mrs. Stark thinks that paying bills several months later is just as good as paying when they're due. How would she feel if her husband delayed her allowance? Creditors are just humans with lots of bills to pay, too...and they depend upon us to keep our word and pay the bills when due."

As Mr. Stark walked away, he heard the woman say, "Paying bills promptly is one good habit that

every one can easily form," and he made a mental note to help his wife pay their bills when due.

Let us help you form this habit. Bill fretting will be at an end, and your good credit standing will be a thing of pride.

a 9-million-dollar
Market for
OREGON

UNION PACIFIC employees in Oregon were paid \$9,147,094 in salaries and wages during 1930. More than three thousand four hundred families, a total of 20,719 people, received their support from Union Pacific.

Think what that means to Oregon's home market—to the development of her growing industries—to the consumption of her agricultural products.

The preservation of this vast home market among Union Pacific employees is dependent upon the continuing prosperity of the Railroad. Every shipment made by truck weakens the Railroad structure and affects railroad employment.
