"IT'S A LONG TIME BETWEEN DRINKS"

 "and if someone doesn't put some water in me soon I'll dry up and quit my job for good just when my thoughtless owner needs this car most. I require distilled water every two or three weeks and I'll get it or else—"
 Such, we suspect, are the thoughts of many a good but neglected battery.
 We'll be glad if you'll accept this as an invitation to drive your car in regularly and let us put distilled water in the battery. It won't cost you a cent and it will add months to the battery's life.
