STAPLES HEARS LOCAL TAX TALK

MALHEUR SOLON WILL LEAVE FOR SALEM TO ATTEND SPECIAL SESSION OPENING JAN. 3rd.

When Representative-elect V. B. Staples answers roll call at the special session of the Oregon legislature which convenes January 3, in Salem, he will take with him the knowledge that more economy in state government is preferable to a sales tax to the majority of Malheur county people.

According to Frank Morgan and Attorney E. M. Blodgett of Nyssa, who attended a special meeting of the Ontario Commercial club Tuesday night, most of those present did not favor the sales tax. H. C. Boyer and Otto Leuhns of Ontario presented the strongest negative arguments, urging that at present the people pay all the taxes they can afford to pay.

W. J. Pinney presided. Judge Graham read the resolutions adopted by the county judges convention.

The meeting also favored a reduction to \$5 for 1933 auto license fee.

NEW YEAR HOLDS BRIGHTER PROMISE FOR DAIRY FARMS

PATRONS OF FARMERS' COOPERATIVE CREAMERY WELCOME \$60,000 DIVIDEND AND LOOK FOR BETTER YEAR AHEAD.

"The friendship and loyalty to the principle of cooperative marketing has made possible the continued success of the Farmers' Cooperative creamery in spite of the period of adversity through which all of our people are passing," said W. B. Wagner, manager, in his annual Yuletide greeting to all patrons.

"By standing shoulder to shoulder, the wonderful records made during the past will be duplicated in the New Year." The creamery's annual dividend, paid last week to 5500 farmers in eastern Oregon and western Idaho, represents the premium paid above the cash market price of butterfat, making an additional profit of 1 1-2 cents per pound for every pound of butterfat delivered during the past year.

Reviewing the year's operation, Mr. Wagner made the following statement: "Due to the low price for butterfat during most of the year, many dairymen who had cows of low production ceased to milk them and a number sold their herds, so that the volume of butterfat was slightly reduced, the total being five million pounds. This is the second time in the history of the institution there was a decrease in the volume under the preceding year. Despite the decreased volume, however, due to reductions in wages and other items entering into manufacturing cost, the expense of making butter, ice cream, cheese, casing and dried milk did not increase, Wagner said.

"On the other hand, marketing costs were reduced and the average price paid dairymen for butterfat during the entire year was 19 1-2 cents per pound. Aside from the dairy products handled by the cooperative, turkeys, poultry and eggs were marketed for members.

Leaving his clothing and a bible bearing the inscription that it had been presented to J. A. Ringer by Louis Church of Nyssa, Mr. Ringer ended his life by jumping from the Ontario highway bridge Monday evening. The man had been associated with the Pentecostal faith and had been a frequent visitor here and in Ontario.

Mrs. Ringer and her two children came from their home in Emmett Tuesday to identify the clothing and bible. Officers told her it would be futile to drag the river for the body. She gave her husband's age as 35 but stated she could give no reason for suicide as he was in good health and was not given to worrying. He is a brother of Mrs. E. E. Silkett of Ontario.

Counties Go After Ward Bill, Help State At County Expense

While William Elms secretary to the state board of control, is preparing to ask the legislature to fasten greater responsibility onto the several counties in the matter of collecting from individuals under the "ward" bills enacted by the 1931 session, county officials on the other hand have served notice of their intention to seek repeal of the bills, or at least that portion which imposes a charge on the counties for the non-violent insane patients in a state institution. Records in the office of the board of control show that of \$346,573 collected and payable under the provisions of the acts to date, only \$85,364, or less than one-fourth, has been paid by individuals, whereas \$261,209 has been passed on to the counties for the care of their non-violent insane.

Sponsors of the measures before the last legislature explained that the charge against the counties for the care of non-violent insane was included only as a deterrent to the dumping of "harmless indigents" onto the state under the insane commitments. Non-violent insane, it was explained, constituted only a small portion of the insane population and the charge would

work no hardship on any of the counties. Experience of the past year, however, has proven the bills to be highly ineffectual as revenue producers from private sources although they have succeeded in relieving the state of a considerable burden of expense by passing it back onto the counties.

Malheur county alone has paid the state \$25,000, \$3,065.35 is still owing and the small sum of only \$58 has been paid by individuals. So far as Malheur county is concerned, the law transferring the cost from the state to the county, has proved a serious boomerang and it should be repealed.

Convalescent from a major operation, Franklin Fry was able to return home on Christmas from the Ontario hospital. He is reported doing nicely.
