

FIRE DEPARTMENT REORGANIZES TO WAR ON FLAMES

CHIEF BURBIDGE PLANS JOB FOR EVERY MAN; COUNCIL WILL DECIDE ON MOTOR TRUCK PURCHASE FEBRUARY 6th.

In an effort to lower the recently increased insurance rate in Nyssa, citizens have reorganized the volunteer fire department and to increase its efficiency Chief Sidney Burbidge has assigned the more important tasks to appointed captains and assistants. Practice at frequent intervals is planned with a job for every man.

Burbidge has been elected chief, Don M. Graham, first assistant chief and W. F. McLing, second assistant. Marlin Wilson is captain of Company No. 1, with assistants: Dan Smith, Hubert Leuck, Wm. Keizer, Wm. Schireman, Bunny Schweizer, Christie Minton and Ed. Warren.

Aden Wilson is captain of Company No. 2 with assistants: Wesley J. Browne, Leslie McClure, Roy Pounds, Ralph Lawrence, Hershel Thompson Dewey Ray and Wendell Pogue.

George Schweizer is captain of the chemical company with assistants: Jake Green, Blaney Boydell, Ed. Wilson, Frank Laurence Dwight Smith, Harold Hoxie and Claude Wilson. Other volunteers, who wish to join the department, will be assigned positions on the various companies by Chief Burbidge.

Council Cooperates
Working with the department in the effort to lower the premium charge here, the council is discussing plans for the purchase of a motor fire truck, a requirement of the Oregon rating bureau. The matter will be discussed at the regular meeting of the council on February 6, to which officials of the fire department and other interested property owners are invited.

The premium rate has been advanced 50 per cent on residential property in Nyssa. Such a raise is considered exorbitant, in view of the fact that but several small fires occurred in the city in 1932. Two of them occurred at dwelling houses and were extinguished before any great damage was done. The most serious fire occurred at the Idanha orchard, several miles from town, when the drier burned in the night. This fire should not effect the rating given city property, nor should it be considered in Nyssa city losses for the year.

FRIDAY, 13th, NOT LUCKY DAY FOR TWO

Friday, the 13th, was an unlucky day for W. F. McLing and a horse saddle to be owned by Sam Brown of Apple Valley. Returning from a meeting in Parma with Howard J. Larsen and C. L. McCoy, Mr. McLing's Ford sedan struck one of several horses that were milling around in the highway. It seems that the unlucky horse first leaped from the road but a second later he was back, bolting directly into the car which by that time had almost reached a full stop. The horse struck the radiator, crushing it, the rim, hood and a shatter-proof windshield, which was broken but fortunately cut no one. McLing was able to drive the car into town.

A. H. Boydell drove through the horses a few moments before and stated that he barely missed striking one of them.

Witches Use "Eye of Newt" In Brewing Poison Potion

"Eye of newt and toe of frog,
Wool of bat and tongue of dog."
These were the ingredients used by the witches in Macbeth when they brewed their poison potion in a boiling cauldron. Other than for the witches' potion, scientists find no use for the newt, a living sample of which George Toombs brought from Cottonwood creek near Westfall to Don Graham's office window here.

The newt continues to swim about in a bowl, while dozens of people gaze at him and pronounce him the first newt they have seen. He looks like a lizard but the encyclopedia calls him a tailed animal of the frog family. Its body is about three inches long with tall as large and as long as its body. It is an adult, olive green color with orange colored spots along the sides. Its head, body and feet resemble the lizards but its tail is somewhat thicker. It swims by means of its tail.

The newt is related closely to the salamander, says the encyclopedia. It lives on worms, larvae, insects; it is harmless and unattractive. It devours the wrigglers of mosquitoes, its only saving grace. The American newt de-

4-H CLUB WORKERS GET MANY AWARDS AT KOLONY SCHOOL

ASSISTANT STATE CLUB LEADER ATTENDS FROM CORVALLIS; MCKENNON PRAISES KOLONY AS OUTSTANDING IN CLUB ACHIEVEMENT.

Kingman Kolony again stepped to the front in Malheur 4-H club activities when the Parent-Teacher association held the annual achievement day program Friday evening at the Kolony schoolhouse, with club members from Owyhee, Wade, Big Bend and the Kolony taking part. Four-H workers received achievement pins, gave reports and sang club songs. At the close, 4-H girls served cookies, delicious samplers of club work.

Raising poultry, calves, pigs, judging livestock, cooking out of doors and in the kitchen, canning and sewing—these were among the worthwhile projects completed by the boys and girls. Their work was generously praised by Russel McKennon assistant county agent, who was chairman of the evening. "Of twelve clubs started, seven in this district completed their work 100 per cent," said McKennon. He praised the district as the strongest in 4-H work in the entire county.

Leaders received due credit, silver pins being awarded to Chas. E. Witby, Big Bend; Bernice Dunn, Owyhee; M. L. Judd, L. P. Recla, Mrs. Clarence Elliott, T. T. Elliott and Henry Slippy of the Kolony.

Two Get 5-Year Awards
Gold pins denoting five years of project completions were presented Lois Schweizer and Lois Enos, of the Kolony. Three 4-year awards were made to Dorothy Holla, Ella Points and Viola Glascock. Sixteen silver 3-year awards, 12 second year and 14 first year pins were also presented to the large number of club members sharing in the honor of the evening.

Of particular interest was the presentation of fifth place ribbons and \$12 in prize money to the three boys who competed in the livestock judging contest at the State fair. These boys were Arnold Slippy, Leonard Nichols and Bob Winters. Nichols described their trip and presented the check to Mrs. M. L. Judd for the P-T. A's summer school fund. Arnold Slippy and Ella Points made the trip last year. Arnold described the session.

Another award presented was that won by Peggy Schweizer and Viola Glascock with their canning demonstration at the county fair. This was \$5 given by the Idaho Power company as a special.

State Leader Shows Movies
L. J. Allen assistant state club leader, made an interesting talk and surprised the crowd by announcing that he would present an achievement pin to one young man who had long engaged in club work. The young man proved to be Mr. McKennon, who in turn introduced Mrs. McKennon and presented her with the pin. Mr. Allen then presented three reels of club movies. Mrs. Tom Lowe, organizer of the first P-T. A. which sponsored the first 4-H club in this county, delighted her young and old friends with a little talk. She stated that idle time was put to good and entertaining use through 4-H work.

County Agent R. G. Larsen and Mrs. Kathryn Claypool, school superintendent, gave short talks in which they heartily endorsed club work. Responding but declining to tell "how many years she had engaged in club work," Mrs. Victoria Schweizer addressed the crowd. She stated that the good derived by young people from 4-H work amply repaid parents and teachers for their efforts.

UNCLE SAM HITS LOWER INCOMES

New income tax requirements have been drawn up for the year 1933.

The new figures in the tax requirements are: Partnerships and corporations must file regardless of their net income. Individuals, single or married who have a gross income of \$5,000 must file returns regardless of their net income. Failure to file on time calls for penalties. The returns are due on or before March 15.

With the reduction of the exemption from \$3500 to \$2500 for married persons and from \$1500 to \$1000 for a single person, hundred of thousands of taxpayers will now be required to file income returns who heretofore were not subject to the provisions of the income tax law. To prevent a taxpayer from becoming delinquent, it will be necessary in many cases to disseminate information through very possible sources emphasizing the new requirements in this regard.

Because of the vast number of new taxpayers, it will be impossible to mail an income tax blank to the new taxpayers, the blanks will have to be distributed through the Portland income tax bureau, or through Mr. Schaffer, Internal Revenue collector in Baker at the court house.

It is to be understood that the failure to receive a blank does not excuse persons from filing nor does it prevent the assertion of the fixed penalty for failure in this respect.

OWYHEE BIDDO DOES CHICAGO HEN MANY BIG EGGS BETTER

It isn't unusual, it is just natural for an Owyhee biddy to lay an egg which is almost twice the size of the average White Leghorn's egg. In fact, her owner Mrs. Carl Jungquist of the Owyhee thought little of the unusually big egg until she read that a Chicago hen had laid an egg measuring eight inches in circumference from end to end. The egg was considered extraordinary so Mrs. Jungquist measured the egg her hen produced—it rivaled the Chicago hen's. But Owyhee biddy does it every day. She is a 2-year old White Leghorn, a little smaller than the average hen. Mrs. Jungquist recalls that she began by laying one of the big eggs every other day. Her production increased to one big egg per day in the early fall.
