American stock and commodity prices shot upward and the dollar fell off in world exchanges. Wheat futures at Chicago shot up nearly 5 cents a bushel. Bar silver gained.

NESTING GEESE AT MITCHELL BUTTE FEAR ECHOING WIND

"Honk! Honk!" said the wild goose when he called to his mate at Mitchell butte—for this is nesting time and there is much to talk about.

"Honk! Honk!" replied the echo with a rush of wind through the rocks.

"What! What!" came the chorus from the pair of flying birds. And then pandemonium broke loose and the valley was filled with the screaming of the angry geese as they shouted to the echo which always replied. A friend of the nesting geese for several years, Mrs. Tom Lowe, went to investigate.

She heard the geese and the echo. "They fear intruders at their nest high in the rocks," thought Mrs. Lowe.

She was right. For after circling high, the geese returned to their nest and all was silence. Mrs. Lowe was as much surprised as the geese at the echo as she had never heard it before. She believes it was caused by an unusual course of the wind.

MOTORISTS MUST GET NEW CARD

LICENSES TO DRIVE ISSUED PRIOR TO JULY 1931 MUST BE RENEWED; PRICE RAISES.

Here's a tip for the thrifty motorist! Drivers licenses will sell for exactly twice the present price after June 9, the fee having been raised to one dollar under the new law which will become effective at that time.

The new Oregon motor vehicle law provides that all drivers licenses issued prior to July 1, 1931, must expire on September 1, and every two years thereafter, beginning on June 30, 1935.

Persons desiring to renew their operators cards before June 9 may secure an Oregon Motorist's Manual from the Journal office. These may also be obtained from state police, county sheriffs or police. No one should attempt to take the examination without first having carefully studied the information contained in the manual.

C. M. Bentley, of Salem, will give examinations at the city hall in Nyssa Thursday afternoon, April 27.

Owyhee Canyon "Happy" Days Draws Huge, Fun-Seeking Crowd to Nyssa

A festive spirit spread over the city Friday with the arrival of the first night crowd which came to Nyssa to take in all of the fun features at Owyhee Canyon Days, the annual frolic of the Nyssa Commercial club.

The crowd was larger but receipts in money were somewhat less than last year. This, the committee had anticipated, however, and despite the reduced profit everyone was well pleased with the outcome of the show.

Shortly after nightfall, business men left their cares at home and like Cinderella they stepped forth. They became the gay caballeros at beano, black-jack, craps and roulette. They passed out bucks by the thousands. They fried dogs and sold pop. Still others, in cowboy attire, managed the throng that crowded the dance floor both nights.

"Everyone seemed to have a fine time and we are well pleased with the success of the show," said one committeeman. "It brought lots of money to town but better still it shows how fine our people can work together and put a celebration across."

Another reported that a visitor from Idaho said, "We've had a fine time—we won't miss it next year."

GOES TO CONGRESS WITH FARM BILL; DANA ON RETURN

DELEGATE OF VALE-OWYHEE REQUESTS TWO-YEAR LOAN OF \$10,000,000 FOR COMPLETION OF LOCAL PROJECTS.

Washington D. C., April 19—(To Frank T. Morgan, Secretary Owyhee Irrigation District)—The loan now presented. It is an amendment to the Farm bill and has the President's definite approval. The outlook is bright. I believe the job is done. Marshall N. Dana.

Thus machinery has been set in motion which, if approved by congress, will enable the reclamation bureau to obtain a loan from the Reconstruction Finance corporation for the continuation of work on the Owyhee and Vale irrigation projects.

"I believe the job is done." With these words Marshall Dana is leaving Washington today. For over three weeks he has made every effort, along with Congressman Walter M. Pierce and others, to further the fight for the 1933 appropriations. He carried his plea direct to President Roosevelt so serious was the opposition to the reclamation program. The first accomplishment was to prevent the transfer of the depleted reclamation fund to forestation work. The crowning step was to win support of the loan bill in the senate and house. As an administration measure, the plan could be merged with one of the major bills upon which vote is assured at the special session of congress. An adroit stroke was accomplished when the reclamation loan amendment was finally tacked onto the farm bill—with the President's approval.

A great piece of work—that is what Nyssa and Malheur county people are saying of Mr. Dana's work in Washington and with him Congressman Pierce shares the gratitude and praise of local friends.

An ovation awaits Mr. Dana if he comes this way on his return trip but The Journal has been informed that other business will take him by the northern route to Portland.

Just how much of a loan will be granted the reclamation bureau is estimated variously at five to \$10,000,000. A 2-year loan of \$10,000,000 was requested Saturday. That amount would practically complete both the Owyhee and Vale.

Perry warned that all violators of the law forbidding the act of driving while drunk will be severely penalized.
