## LEAGUE CLOSES FOR NYSSA NINE

ONTARIO MOVES NEARER CHAMPIONSHIP BY DEFEATING CALDWELL 4 TO 3.

In the last game of the season for the Gate City boys, Dean Johnston turned in a good pitching performance at Nampa Sunday but lady luck ruled that Nampa should win her first game this summer by a 5 to 1 score over the Nyssa team. Johnston gathered 11 strikeouts to six for Schwastinger of Nampa. Nyssa batsmen garnered nine scattered hits, Nampa seven. Rambaud relieved Johnston.

While Nyssa closed the season at Nampa, Ontario moved a step nearer the championship by trouncing Caldwell 4 to 3 at Ontario. Nyssa fans who saw the game said Nightengale pitched in top form. Simmons made a home run in the second frame and in the ninth Caldwell scored twice. A postponed game between Nampa and Ontario will decide the title.

Boise trounced Baker 13 to 3.  
League standing follows:

Club	W	L	Pct.
Ontario	7	2	.778
Caldwell	7	3	.700
Boise	6	3	.667
Baker	4	6	.400
Nyssa	3	7	.300
Nampa	1	7	.125

## NEWSPAPERS WILL AID WHEAT PLAN

Local newspapers are booked to play an important part in the application and administration of the wheat adjustment plan, according to word received by the Oregon Extension Service. Use of the press for publication of past production records of growers and the later allotment figures is expected to simplify greatly the arrival at fair production quotas for each individual.

Growers are being asked to prepare two important items of information to have ready in advance of their application to join the wheat benefit plan. The information wanted is first the number of bushels of wheat grown each year from 1929 to 1932, and second, the number of acres planted in each of these years.

By using elevator, freight, threshing, or bank deposit records, accurate estimates can be made. These figures turned in by each farmer are to be published in the local press. This is intended to encourage any carelessly inclined to be more accurate, as any boosting production reports so as to get a higher allotment tends to damage the neighbors rather than the government, as the county allotment is fixed in advance.

Believing that farmers will be anxious to avail themselves of the benefits under the new wheat plan, unauthorized promoters are already appearing and trying to "chisel in" on the farmers' expected returns, officials report. In one state, farmers are being approached with the offer of help in making application to receive cash benefits under the wheat plan—for 10 per cent of the proceeds. No grower need spend a cent for any such purpose, as the county agent will give assistance free of charge.
