Holstein Milk

Health - Vigor - Vitality

Whenever you see
bright-eyed, active young-
sters brimming over with
health and vitality it is
certain they are receiving
a plentiful supply of proper
nourishment. Milk is
the only single food prod-
uct which contains all the
nutritive elements neces-
sary to promote health
and growth. A liberal use
of it strengthens the mus-
cles and vitalizes the
blood. There is no waste
to it, and it is a very eco-
nomical article of diet for
the whole family.

It Makes the Youngsters Grow

Kiddies thrive on Holstein milk because it comes from large,
vigorous, healthy cows and contains an abundance of nature's
vitalizing and growth-producing elements. Its fat content is such
as not to cause digestive disorders. It contains lime for strength-
ening the bones and teeth, its proteins build muscle and its vitamins
produces growth.

Holstein milk is produced for this city under strict sanitary
inspection standards. It comes from healthy Holstein cattle and it reaches
you through dependable distributing channels.
