WE GIVE THANKS - - -

THIS year with every citizen vitally conscious of playing his part in the great drama of recovery, with every resource of the nation actively dispelling all gloom, we have more reason to be thankful than at any time during the past three or four years. We've rounded the much talked of corner, and the road is clear.

With national recovery in view, this Thanksgiving will not be the hollow, forced effort at gratitude for doubtful blessings it may have been in the past few

years. It will not be a "Beau Geste" borne bravely on the shoulders of a people famous for undying hope and courageous fortitude. It will be, as it should be, more spontaneous and whole-hearted than any Thanksgiving since the World War.

Just as our forefathers felt called upon to pause in their activities and give thanks, grateful for their survival, let us celebrate this Thanksgiving with genuine gratitude, thankful that we too have been active, meeting conditions as they are, and have arrived at a time when the future presents a definitely brighter aspect.

The huge public work program which is just beginning on the Owyhee irrigation project will give employment to many men. This will bring better days.

Economic conditions are also on the upward trend. Our interest in the welfare of this community prompts us to sponsor this message to the people of Nyssa as "We Give Thanks"—
