"SHADOWS OF SING SING"

We say . . .
"Spring at this chance before Spring!"

DO YOU KNOW why so many people are buying tires earlier than usual this year? . . . Every one believes prices are headed upward—and thinking drivers figure it's no saving to run risks while using up old rubber, only to pay more for new tires later. Invest now in a whole new set of Goodyears—you'll be glad you acted on our advice.

GOOD YEAR

●We have guaranteed Goodyears at lower prices than our All-Weather shown here—but more people buy the All-Weather! Tires are still so low in price that, unless you're trading in your car this Spring, it's best to invest in the best. That way you spread the benefit of today's great values over the most months and miles.
