**MORE MONEY IN SIGHT FOR FAIR**

Additional premium money is assured the Malheur county fair at Ontario August 29, 30 and 31 through proceeds from para-mutual betting at various fairs in the state in 1933. "We'll have twice the money for premiums this year," said Orris Dearborn, a visitor at The Journal office today. The American Legion will handle the sports program. By planning early, it will be possible to guarantee purses for racing events.

**MARINES ARE WANTED**

The United States Marines corps desires young men for enlistment to fill vacancies which will occur during the months of June, July and August 1934.

Requirements for enlistment provide that accepted applicant must be American citizen, unmarried, at least 18 years of age, of good habits and character, 60 inches tall or over, and able to furnish at least three letters of reference from reputable people.

Information, literature and application blanks may be obtained from the postmaster or from the United States Marine Corps recruiting station, 208 U. S. Court House, SW Broadway and Main Street, Portland, Oregon.

Applicants residing at remote distances from Portland, Oregon, will be given preference in filling existing vacancies.

**PUBLIC OPINION AND THE BANKS**

By F. N. SHEPHERD  
Executive Manager  
American Bankers Association

WHILE banking today appears in a wholly distorted light in the eyes of some, the more reasoning elements

in our population undoubtedly have a less jaundiced view than would appear from certain irresponsible orators, often posing as spokesmen for that indefinite quantity called "the mass" of our people.

Anti-social acts on the part of some bankers formerly have been

the subject of spectacular exposures, but I can say without reservation that they were in no way typical of the acts and attitudes of the vast majority of their fellow bankers. The public mind was shocked into the belief that these untypical instances were far more representative than they really were, and this belief has been encouraged by political and demagogic elements.

**The Bankers Today**

The bankers who are in charge of our banks today represent men who withstood the temptations and avoided the economic pitfalls of the great boom. If they had not they would not be there, or their banks would not have been able to survive the rack and ruin of the economic hurricane, by which even many banks and bankers, whose conduct was above reproach, have been destroyed. The other types of bankers, those that fell below the high standards of professional ethics and business prudence that characterized those that remain, have passed out of the picture. But they have left for those that remain a difficult heritage of suspicion and ill will.

How irrational this is, when we reflect that not more than three or four per cent of our entire population suffered personal loss because of what, whereas literally millions of bank depositors did not lose a single cent as a result of banking difficulties and really owe a vote of confidence and thanks to their own bankers who were true to the highest conceptions of their stewardship and brought their institutions and their customers safely through the greatest business disaster the world has ever seen. It has been a peculiar feature of the psychological distortion of the times that many who owe nothing but gratitude to their bankers joined in blaming the banker far out of proportion with any rational consideration of the facts.

**Banks Repaying Loans From R. F. C.**

Although banks and trust companies have been the largest borrowers from the Reconstruction Finance Corporation, they have exceeded all other classes of borrowers in the rapidity of their repayments. Since the inception of the R. F. C. in February, 1932, loans have been authorized by it to 7,080 banking institutions in the amount of \$1,295,000,000. Of this sum \$442,000,000 was not taken by the borrowers, the actual advances being \$1,553,000,000.

Repayments against these advances through April 30, 1934, aggregated \$925,000,000, or about 60 per cent. The ratio of repayments for all classes of borrowers has been only about 37 per cent. These rapid repayments by the banks are taken by competent observers as a strong indication of returning normal financial and banking conditions.

**Bankers Finance Scholarships**

The American Bankers Association Foundation for Education in Economics has since its establishment in 1928, awarded 354 college loan scholarships, the total loans repaid in that period being \$262,000 and the amount now outstanding \$85,900. The total investments of its funds are \$540,000.
