Beulah Camp Is City Today With Electric Lights

Beulah has changed from sleepy postoffice and store to a thriving construction camp, said Mr. and Mrs. W. F. Glass and Mrs. T. B. Haynes of Baker who returned to Nyssa yesterday from a visit of several days at the Winnie Scott cattle ranch. Beulah is headquarters for Hinman Bros., who are building the North Fork dam for the Vale Irrigation district. Over a hundred workmen are employed—a nd Beulah has electric lights. This was one of several changes which give the camp a wide awake atmosphere.

Sunday, Beulah friends chartered Oscar Thompson and wife (Mrs. Netta Buchanan of Weiser) who were married last week. Thompson is a nephew of the late Elias Thompson, Beulah pioneer.

Mr. and Mrs. Glass and Mrs. Haynes were overnight guests Wednesday at the C. W. Morfitt ranch on the Owyhee. Mrs. Glass is a bride of two months, formerly Miss Nora Haynes. Her husband is a lookout with the forest service and will be located near North Powder for the summer. She is a niece of Winnie Scott.

ONTARIO-NYSSA IRRIGATION COMPANY ON SOUND BASIS

On July 8, 1911, the Ontario-Nyssa Irrigation Company filed articles of incorporation. Since that time the Company has been active and has kept its machinery running and its land watered. About 90 farmers were included in this body and about 6,000 acres of good land were brought under cultivation.

An excellent pumping plant was built on the Snake river, with five pumps, a pipe line one and a quarter miles long, and a main line canal running north and west about twenty-two miles. Some of the best land in Eastern Oregon lies within this district, and almost every acre of it has been under cultivation since the inception of the Company.

Through all these 22 years the farmers of this company have worked and saved and paid until they stand in the clear, not owing a dollar to anyone. There is no bonded indebtedness, no drainage millstone, no bills outstanding.

Changes have taken place in the membership of the board in the earlier years of its existence, but within the last thirteen or fourteen years there has been little change, and no change in the presidential office. Will J. Roberts has held the place of responsibility, and has given time and thought without measure to the running and guiding of the machinery of business.

The success attending his efforts if the Board is shown in the fact mentioned above, viz; that the company, in spite of hard times and bad prices, owes no money to anyone.

With the coming of gravity water the Company will cease to exist as a company, and will be operated by the District.
