**HAYSTACK BURNS IN  
ARCADIA TUESDAY**

During a heavy rainstorm Tuesday, a haystack caught fire on the K. S. and D. ranch in Arcadia. Over forty tons of hay was a total loss as the company carried no insurance. Renters on the ranch believe some tramp must have dropped a cigarette in the hay to start the blaze.

A grass fire which started on the Charles Marshall ranch recently spread to the Deseret ranch where it burned about 15 tons of hay, two straw stacks and over quite a tract of pasture.

**DOCTOR TOLD THIS LADY  
HOW TO SAFELY  
REDUCE FAT**

Mrs. Helen Greene writes: "A physician advised my mother to take Kruschen Salts for overweight so I immediately started taking it myself. I weighed 192 and after taking 3 bottles I now weigh 165 and never felt so well. It's a tonic as well as reducer."

Reduce safely and sensibly by taking a half teaspoonful of Kruschen in hot water every morning—you'll be overjoyed with your improved health and slender, stylish figure. One bottle lasts 4 weeks. You can get Kruschen Salts at any drug store in the world.—Adv.

**KAMPKOOK  
is moving into the kitchen.**

Various models: two- and three-burner. The only stove of its kind having removable fuel reservoir (a patented feature).

FOR years Kampkook has been the most widely used touring, camping and picnicking stove in the country. Today it is becoming just as popular as a cooking appliance for the kitchen. It's so handy. So compact. So economical. And the amount of heat it produces for cooking or baking is amazing.

Kampkook makes its own gas—from gasoline which is one of today's cheapest fuels. It is easy to operate; lights instantly—no

generating required; produces a clear-blue, smokeless and practically odorless flame; and is as safe as any wood, coal or city-gas stove. (Approved by Underwriters' Laboratories.)

A suggestion: Use a Kampkook in place of your regular kitchen range this summer and save a lot of fuel money. You'll be surprised how little a Kampkook costs.
