

## LAND SEEKERS FROM 5 STATES LOOK TO OWYHEE

### CARAVAN OF TEN FARMERS HAILS FROM COLORADO; AMPLE WATER ON OWYHEE IS APPEALING FEATURE.

A caravan of ten farmers from Colorado is spending this week on the Owyhee project with a view to purchasing tracts of land for the development of new homes. They have spent much time inspecting the golden fields of grain which are ready for the harvest, the verdant orchards and field crops which circle the bench lands which will be irrigated in 1935 and succeeding years. They pronounce them the finest crops they have seen.

It so happened that the land seekers from Colorado arrived in Nyssa just in time to join parties from four other states, North and South Dakota, Utah and Idaho. The visitors from the Dakotas reported the most severe drought in many years in their section. The feature relative to the Owyhee project which appealed most to them is the surety of ample water from two sources—from Owyhee reservoir which will easily fill in normal years and Snake river. The government-owned power plant at Black Canyon dam will furnish the power for all Owyhee pumping that is directed to in dry years.

Directors of the Vale-Owyhee land settlement association held the July meeting here on Tuesday night H. C. Boyer of Ontario, R. D. Lytle of Vale, M. L. Judd, Dr. Sarazin, C. C. Hunt and Attorney Lott Brown attended. Frank Moran, secretary, reported splendid results from the classified ads which are being run in farm journals of the west and middle-west. Last month 300 acres of land was sold to new settlers.

Rev. R. A. Eubanks, Episcopal clergyman of Boston, Mass., yesterday purchased a tract on the Owyhee project in the vicinity of Terteling camp which will have water next year. Mrs. Eubank is an Oregonian, formerly of Coquille. The Eubanks will locate here soon.

Dr. J. J. Sarazin was called to see the unusual arrivals.

Martin, democratic candidate for governor, arrived in Ontario Monday morning on his return to Oregon from Washington. He passed through Nyssa but made no stop here. General Martin discussed Malheur county PWA projects, among them the Owyhee and Vale irrigation projects which now come under this department. The following statement was made:

"The Vale and Owyhee projects will establish your industrial and agricultural future and make Malheur county one of the most important producing counties in Eastern Oregon. Credit for the adoption of these projects, as you know is due entirely to Senator McNary and the late N. J. Sinnott. Their names will undoubtedly be written high on your scroll of honor when Malheur county's history is recorded. It was a pleasure to be able to help you secure these projects when they were placed high on the list of PWA funds for reclamation service by Dr. Mead.

"I want to make this statement. We have a president who has a western viewpoint. I have talked with him many times about our problems, the gravity of which he appreciates and for the solution of which he has a sympathetic interest. This is shown by the fact that he is coming to Oregon to note progress being made on the big projects he personally endorsed."

It is understood that Ontario's city water improvement project has been approved by the PWA, also the proposed Nyssa sewage project although definite advice from Washington is still awaited.
