PROTECT THE EQUIPMENT

Too much cannot be said about the care of the new school equipment. Though no one has begun carving on the new furniture with jack knives, some are not as careful as they could be with it. Some push the chairs around and knock them over scratching the varnish off. Some use them as foot rests which mars the finish. Let every student be as careful as possible with the new equipment for it is going to be marred enough by being banged around in the different places before it is put into the new building.

BASKET BALL

Basketball has started. And football games are through. The boys need lots of practice. To battle for the White and Blue. The coach says coordination and team work must be true. To make a winner in basketball. The good old White and Blue.

Now that the boys are working. And fighting for all of you. You ought to show a little respect. And try to help them too. Bob Leuck.

THANKS

The letterman's club wish to thank the business men of the town who contributed to the fund being raised to purchase the warm-ups for the basketball squad.

LETTERMAN'S CLUB DANCE

The box social and dance sponsored by the letterman's club turned out to be one of the most successful social events of the school thus far this year, despite the lagging interest the students showed the week before.

Although the crowd was not large a good time was enjoyed by all. The proceeds collected on this event will be used to purchase warm-ups for the basketball squad. The letterman's club wish to thank the Alumni for their help in this event and will return the kindness with another party for them soon.

GIRLS ATHLETIC

Tumbling was started on the girls athletic club last week. They are enjoying it immensely with the exception of some very stiff muscles and in one case a sore nose. There is a large group

out for this sport. A kid party is planned for the club girls. The girls are coming in pairs, one girl taking the place of the male escort.
