Students!
We are now in the new building and must start changing our ways and habits.

Running in the halls, writing on the walls, throwing paper around will not be permitted as was in the old building and in the gymnasium.

We have one of the most modern high schools in this section of the state. It is very nice inside and will stay that way a long while through cooperation of the students.

The letterman's club will take rule

under the supervision of Mr. Young and any one caught violating rules will be paddled. This applies only to the ones who destroy property. If one is caught throwing paper or running in the hall he will just be reminded by one of the lettermen and if he violates it too many times he will be turned in for spats.

Lets all of us students cooperate with the faculty and letterman and strive to keep our school nice.

LIGHTING FIXTURES

By some method each class is to provide lighting fixtures for their home

room, as there was not enough funds left for purchasing them.
This will be left to the various classes.

NEW LOCKERS

The combination lockers that have been installed in the new building are quite a novelty to the students.

The girl's lockers are in the hall and are 5 feet high while the boy's are 3 feet high and are situated in the Study Hall and in the History Room.

OPEN HOUSE

The faculty and students will hold open house at the new school building next Wednesday during the day and evening.

Anyone interested in seeing the new building and its equipment is invited to come up. There will be monitors to show people around the building.

TWO NEW PICTURES

Two new pictures were found on the walls of the new building when students moved in last Monday. One, "The Departure of the Mayflower," is hanging on the east entrance wall while the other, "The Cathedral of Rheims" may be seen in the principal's office.

JOKES

Lois Enos visiting her uncle on the farm was watching a cow chewing her cud.

"Pretty fine cow, that," said her uncle as he came by.

"Yes," said the girl, "but doesn't it cost a lot to keep her in chewing gum."

Cook: "How did you find the beef, sir?"

Captain: "Oh, I just moved a bean—and there it was."

Boss: "Look here, you've entered this debit item under credit."

New Clerk: "Sorry sir, you see I'm left handed."

WATCH YOUR KIDNEYS!

Be Sure They Properly
Cleanse the Blood

YOUR kidneys are constantly filtering impurities from the blood stream. But kidneys get functionally disturbed—lag in their work—fail to remove the poisonous body wastes.

Then you may suffer nagging backache, attacks of dizziness, burning, scanty or too frequent urination, getting up at night, swollen feet and ankles, rheumatic pains; feel "all worn out."

Don't delay! For the quicker you get rid of these poisons, the better your chances of good health.

Use Doan's Pills. Doan's are for the kidneys only. They tend to promote normal functioning of the kidneys; should help them pass off the irritating poisons. Doan's are recommended by users the country over. Get them from any druggist.
