WE WILL TAKE NYSSA FOR OURS—

We may cuss around some when we have a little bad weather here but from the press reports of the last month, those of us who are fortunate enough to live in Nyssa should get down on our knees and thank a higher being every night for the privilege of living in this wonderful country. The situation in the east is getting tragic with residents there in desperate plight. Continued high winds and devastating dust storms have destroyed practically all the valuation in many places, with no hope for a crop; and in many sections, farmers see no hope of a crop for years to come. Livestock is starving, the people despondent, business is at a standstill; as the wind makes desert wastes out of millions of acres of once productive soil.

In the Nyssa section we have some of the richest soil in the world with a wonderful dam only 30 miles away rapidly filling with water to assure abundant crops. We have a progressive community, splendid schools, delightful climate; every

advantage in the world. We have no floods to contend with, no cyclones, no drought. Every resident of this section should appoint themselves a committee of one to tell those in other sections what a fine country we have here. We can use more people of the right type and the helping hand is always ready to assist the man who is willing to try and help himself. Let's boost Nyssa for we have all the arguments in our favor; all the advantages, and let us hope we will take full advantage of our good fortune.

Editorial Comments

By Clark Wood

There seems to be no limit to what a nudist will bare.

Even though they never come across, Uncle Sam may be embarrassed before long by his foreign relations.

The return of good times will signify little to those who have acquired the habit of feeling poor.

One person out of every five in this country is now on relief. Before long, we fear, there'll be nobody left to pay for the relieving.
