

OWYHEE DAM SPEEDS AHEAD

NEWCOMER AT CAMP IS HONORED AT SOCIAL AFFAIR; HONEYMOONERS RETURN AFTER AUTO WRECK.

Owyhee Dam—(Special)—Work on the Owyhee dam has continued at the maximum rate of progress permissible under the contract which is 28 feet in elevation per month. Installation of the spillway controlling works has started. Work has also begun on the entrance tunnel at the west end of the dam at a roadway level.

Mrs. Bert Hall entertained Thursday night at a dessert bridge. There were six tables. Prize winners were: Mrs. C. A. Betts, Earl Danley, first; Mrs. Frank Green, Mrs. C. S. Hall, a substitute gentleman, low.

Mrs. R. B. Smith and daughter Adell arrived here Tuesday night from River-ton, Wyo., to join Mr. Smith who has succeeded H. N. Bickel as chief clerk on the Owyhee project.

Allen Heuser and wife returned to the dam Thursday after a brief honeymoon in Payette. Both were injured in an auto accident but are quite well now.

George Newport returned Sunday from the Ontario hospital. He has recovered from injuries received in the auto accident near the dam in which Robt. L. Meyer was killed.

Mrs. Richard Adams entertained a group of friends at a dessert bridge Friday in honor of Mrs. Smith and her daughter. Mrs. Smith received high prize and the guest prize, was awarded her daughter.

Leon Hansen is in the hospital ward at the dam recovering from cement poisoning. He is expected to return to work in a few days.

Charles Frahl of Ontario arrived last week to work for Conolly Co. He has worked at Owyhee the last two summers.

Mr. and Mrs. Earl Farmer left camp last week to secure work in California.

CREDIT MEN TO EXTEND EDUCATIONAL PROGRAM; FOLLOWS PUBLICITY TEST

Advice received from St. Louis by the Retail Credit association of Malheur county shows that the American public is quick to respond to newspaper advertising which points out the value of paying bills promptly as an important means of speeding up business and bringing back prosperity. Test campaigns with "Pay Promptly" as the theme have been successfully run under the direction of the National Retail Credit Association in a number of cities.

"Back of the advertising tests, and the consequent decision to enlarge the educational work, is the fact that American Retail merchants are in the banking business to the extent of \$28,000,000,000 worth of open credits and installment sales annually," wrote manager-treasurer David J. Woodlock of the national organization. "Approximately \$15,000,000,000 or more than half of it is not paid when due. As a result of the public's failure to pay bills when they should be paid, billions of dollars of merchants' capital is tied up in frozen assets. We find that consistent advertising in test cities has speeded up collections effectively and thereby helped to increase the dollar turnover in retail trade."
