Guernsey Milk

For the benefit of the people of Nyssa who desire a richer milk than the Holstein milk which we have delivered for the past several years, we have recently purchased some Guernsey cows, and are now delivering high test Guernsey milk, produced in one of the most modern and sanitary plants in this section of the country, according to dairy authorities.

We still maintain our high-standard Holstein milk, which is considered by medical authorities everywhere as the best milk for babies and growing children.

We produce milk for everybody's needs. Try it!
