evening at 8 o'clock at the church.
 Prayer and Praise Service Wednesday evening.

OREGON EMERGENCY RELIEF BUYS 350,000 BUSHELS OF WHEAT

The Oregon emergency relief administration have announced that it has purchased 350,000 bushels of wheat to be milled for direct relief work all over the United States. The price paid for the wheat purchased in this state has averaged from 75 to 76 cents a bushel, Port-

land. Both old and new wheat is being bought.
 The buying campaign, started about three weeks ago, will continue indefinitely and the amount purchased in Oregon probably will depend on whether the expected purchases in other states are made. It was reported here that no wheat had been purchased in Idaho yet under the campaign.

NEW WHEAT PLAN READY; DAVIS URGES BIG SIGNUP

With general features of the new wheat contracts now decided upon, including the rate reduction to be asked in 1936, the campaign for signing up farmers under the new four-year plan will be launched in Oregon and other states soon, probably in August.

The decision to go ahead with the new program and attempt to sign up from 50,000,000 to 53,000,000 acres of wheat land, was announced from Washington recently. The Oregon State college extension service was informed by the Washington officials concerning many of the details of the new four-year program.

A reduction of 15 per cent below the base acreage has been decided upon for 1936, which is the same amount asked the first year the old contracts were in force. Lack of export markets and continued prospective production beyond domestic requirements makes acreage control necessary. If farmers are to receive anything like a fair price, the Washington officials declare.

Features of the new contract are in line with decisions reached by producers and the AAA officials in conference in Washington early in July. In a general way the new contracts follow the plan of the old, although some important innovations are included. One is that instead of there being a fixed rate of benefit payments, decided upon at the start of each crop year, the rate will be left more or less flexible to conform to changing market prices.

Under this plan approximately two-thirds of the prospective benefit payment will be made as soon as contracts are approved. The second or final payment for each crop year is complete. The amount of the second payment will then be determined according to the amount needed to bring parity return to farmers for their allotments.

Growers need not hesitate to sign the new contracts for fear of adverse decision on the constitutionality of the AAA, says Chester C. Davis, administrator. It is impossible to wait until after a decision by the supreme court to launch the new program, because fall grain for 1936 will be planted in the near future. He gives assurance, however, that anybody signing a contract will be paid for compliance as long as it stays in force, regardless of whether the act is upheld or not.

Mr. Davis points out that the new amendments to the adjustment act, as passed by both senate and house, removed many of the objections to the processing tax provisions found

by a federal circuit court which gave a divided decision against the act. He points out also that the new contracts permit cancellation by the secretary at the end of any year and allow the grower to withdraw at the end of the first two years if he so desires.

"Even if an adverse decision by the supreme court should materialize at some future time," Mr. Davis said, "the contract in its present form is admirably devised to protect both the farmers and the government."

BIRTHDAY DINNER

Mrs. Eldon Jensen entertained Wednesday evening with a birthday dinner honoring her sister, Miss Olive Hunter. Guests were Mrs. Alford, Mrs. Hunter and Olive, Charles Drevitz and Mr. and Mrs. Jensen.

BANKS AND COLLEGE LAUNCH NEW SCHOOL

Aims to Offer Studies in Advanced Banking Subjects to Bank Executives

NEW BRUNSWICK, N. J. — The Graduate School of Banking, an unprecedented educational project, operated under the joint auspices of the American Institute of Banking Section of the American Bankers Association and Rutgers University, with 220 enrolled students from 35 states and the District of Columbia, inaugurated here in June its first resident session.

The states represented and the number of registrants from each are as follows: Alabama, 2; Arkansas, 2; California, 2; Connecticut, 9; Delaware, 3; District of Columbia, 6; Florida, 2; Georgia, 3; Idaho, 1; Illinois, 8; Indiana, 2; Iowa, 1; Kansas, 1; Kentucky, 2; Louisiana, 3; Maryland, 1; Massachusetts, 9; Michigan, 5; Minnesota, 1; Missouri, 5; Nebraska, 1; New Jersey, 31; New York, 50; North Carolina, 8; North Dakota, 1; Ohio, 7; Oklahoma, 1; Oregon, 2; Pennsylvania, 32; Rhode Island, 1; Texas, 5; Virginia, 6; Washington, 1; West Virginia, 1; Wisconsin, 4; Wyoming, 1.

The annual resident sessions of the graduate school will be supplemented between periods by continued extension work for the students at their homes. The purpose of the school is described as being to offer in a three year course a comprehensive approach to an advanced study of the various administrative problems in banking and trust institutions. The teaching procedure is a combination of the case system and the lecture discussion method.

The Curriculum

The curriculum embraces banking administrative problems and policies, bank investment problems, legal and managerial aspects of trust business, legal phases of bank administration and economic problems in the field of money and credit. The public relations and responsibilities of banks and methods for meeting these obligations are emphasized in the courses.

It is planned to set up similar schools in cooperation with other universities in various parts of the country. The school will add 200 registrants each year for two years until 600 are enrolled.

SOY BEANS TRIED IN MALHEUR COUNTY

To determine their adaptability as feed crops and their value as green manure crops, 16 varieties of soy beans have been planted, in cooperation with the county agent, on the farms of George Lang on the west bench of the Vale irrigation project and Harry D. Wells on the east bench. The plantings on the Lang farm are on land that has been cropped for three years to grain and clover and heavily manured, and the plantings on the Wells farm are on land just cleared from sage brush.
