DON'T SELL NYSSA SHORT

One of the biggest assets a community can have is a spirit of friendliness that attracts people. No person or community can advance far without a sympathetic understanding of others problems. Making friends, whether it be an individual or a community, is merely a matter of being friendly. A smile, a cheery greeting, a spirit of live and let live means a great deal to any community.

If you meet many people, invariably the discussion will come around to the fact they like this place or dislike that place, simply because of the spirit of friendliness present. We here in Nyssa should try and cultivate that spirit.

Communities need other outstanding qualities among is people if they are to succeed. We need community leaders who know what is right and the will power to see that right prevails. We need that saving grace of being able to get together on community problems, put our shoulders to the wheel and all push in the same direction. We need an aggressive spirit that will not be squelched; a spirit that will not be stopped by adversity or unfavorable criticism.

We have in and about Nyssa natural advantages that should cause us to grow and thrive; and we must take advantage of these things. Our future depends on whether we can forget selfishness, greed and petty jealousy and get behind the movement for a bigger and better place in which to live.

Right now, with the Owyhee project on one side of us and the Black Canyon project to unfold to the east of us, is the time to put our house in order for a brighter day. If we are to attract the right kind of people to our town, we must develop that spirit of loyalty and unanimity of purpose that will enable us to agree on what is wanted and go after it with every ounce of energy.

We have in Nyssa several public spirited men who have been continually working toward the betterment of the town. Prospects are bright for a sewer system; something we need in the very worst way. It is through their efforts that the city will have an opportunity to vote, probably later in the year, on whether this project is to go through or not. Another thing we need in Nyssa is a city park. Right now is none to early to start thinking about the building of a city park; and as soon as possible, start active work building a park we can be proud to own.

We like the spirit of one prominent Nyssa resident who said he believed that now was the time to go in debt, if necessary for the things we needed, for without them we were lost. If we don't start some of this action right away, other neighboring communities who are pushing to the front now, will be so far ahead we will have an extremely hard time catching up.

EDITORIAL COMMENTS BY CLARK WOOD

We'd like to see Tom Mooney pardoned and qualify then as the forgotten man.

At all events, Mr. Hoover's evident ambition to run again is encouraged by the nation's only living ex-President.

Joe Louis is entitled to believe in Santa Claus. Look what he gets out of his sock!

He's a proud householder nowadays who is able to bring home the bacon.

A convivial Eskimo, if any, must be a pretty durable fellow if he can make a night of it.

Our notion is that the aspiring Kingfish, an avowed presidential candidate, won't get very far in the Long run.

One gets the impression that every Russian chap whose name ends in "sky" is a flier.

It just wouldn't do for the G. O. P. to put Bill Borah in the White House. He couldn't be agin' the Administration.

Looks as though the G. O. P. had begun its somewhat premature campaign against Roosevelt by casting boomerangs.
