

OWYHEE P. T. A. MET FRIDAY WITH MRS. SCHWEIZER

Owyhee—Plans for the coming year were discussed at a special meeting of the Owyhee P.-T. A. Friday afternoon at the home of Mrs. Chas. Schweizer. Mrs. M. M. Greeling and Mrs. C. C. Cotton were visitors. Mrs. Greeling gave a talk

on her recent visit to the Parent and Teacher School of Instruction in Portland and also on the duties of officers and committees. There was a very interested membership in attendance. Mrs. Lowe, Mrs. Jay Duncan and Mrs. Bob Duncan were also present. After the meeting iced punch was served by the hostess. The next regular meeting of the P. T. A. will be at the school house the second Friday in September. Mrs. Jenera Plaza is suffering

from rheumatism and is taking a course of baths at the Hot Springs. Mr. Shurt, a newcomer on the project, though one of the first to purchase land here, has a splendid eight-acre field of cucumbers which he is growing under contract for seed.

Dan Smith, who has been employed in the community for some time, visited at his home near Apple Valley over Sunday. Mr. and Mrs. Chas. Schweizer went to Idaho this week to visit Mrs. Schweizer's father who is ill. Jack Rust will assist with the ranch work in their absence. They expect to return the latter part of the week as Mrs. Schweizer's school will open next Monday. She will teach at Wade.

Mrs. Chas. Bradley is enjoying a visit with her sister, Mrs. D. D. Stevens of Twin Falls. Last Thursday another sister, Mrs. F. T. Crawley, of Ontario, and her daughter Margaret, visited in the Bradley home.

Allen Heuser's sister and her husband visited her last Sunday. Mrs. Henry Truelson, Ellis Walters, T. M. Lowe, Mrs. Ruby Rust and family were Vale visitors Monday.

Buck and Clifford Derrick were Ontario visitors Monday. Elmer Derrick is able to be up on crutches after illness and a broken leg.

Mrs. Christianson, who has been in the hospital with a badly fractured collar bone is convalescing at the home of her daughter Mrs. Abbie Morfitt.

Henry Truelson has recovered sufficiently from his recent illness to assist with the farm work.

Mrs. Mary Rust, who has for the past several months been a patient at the Holy Rosary hospital, came home last week somewhat improved.

HOG PRODUCTION LOW TILL 1937; LATE REPORT SHOWS

Conditions are greatly improved in the meat animal industries compared with a year ago, and the outlook is favorable for some time ahead, according to a report just released by the state college agricultural extension service. Producers with hogs to sell are favored by prices more than twice as high as a year ago, with feed grain considerably lower. The index of the average farm price of hogs in Oregon at mid-July was 84 per cent of the 1926-1930 average.

With industrial activity and consumer purchasing power running ahead of 1934, and even a smaller supply of hogs expected to be available for market until production can be increased, the immediate market outlook for hogs is strong. If conditions are favorable, however, the pig crop of 1936 may be 25 per cent larger than that of 1935 and by 1937 it will be possible for hog production to be back to the 1926-1933 level, the report says.

Although beef cattle prices are materially higher than a year ago, cattle prices are not as high relatively as prices for hogs, and prices for cattle feed have not declined so much as for hog feeds, especially in the west. The Oregon price index is only 67 per cent of the 1926-1930 level. The demand for feeder cattle this fall will be strengthened by the abundance of hay and grain in prospect in the East, while the scarcity of hogs and improved industrial conditions are expected to strengthen market demand for fat cattle during the next several months at least. Market supplies of fat lambs and poultry next fall and winter are also expected to be somewhat smaller than usual, the report points out.

In respect to the longtime outlook, the number of beef cattle and sheep in the country next winter is not expected to be much changed from last winter, but thereafter the trend is expected to be upward for a number of years, if feed conditions are favorable.

The report, which is available from county agent Larson also gives outlook information on poultry, dairy and wheat, and data on numerous other farm commodities produced in Oregon.

NYSSA COMMUNITY CHURCH

Sunday School 10 o'clock O. F. Bacon will be back with us this Sunday. The Apple Valley Church has invited the Nyssa church to a Union service at the school house grove at 11:15. Rev. Colton of the Owyhee will preach at this outdoor service. Take your basket lunches and join the picnic.

Epworth League 7:30. No evening worship. Prayer and Praise Service Wednesday evening 8 o'clock. Mrs. Baker, leader.

Using Honey
By Mrs. W. W. Foster

Children require sweets in their diet, and honey is a source of easily digested energy food. Many will soon be facing the problem of nourishing school lunches. Honey can be used in many ways for satisfying sandwiches.

Peanut Butter and Honey
Mix peanut butter and honey in equal parts and spread on whole wheat bread.

Cottage Cheese and Honey Filler
Use a little honey and cream on cottage cheese till it is of the right consistency on thin slices of white bread.

Ham Sandwiches
Put cooked ham through a food chopper and mix well with mayonnaise, sweeten with honey or mustard and honey. Spread on well buttered bread.

Honey Pudding
Two cups of bread crumbled. Two eggs beaten, 3 cups hot milk, 1/4 tps salt, 2 tps melted butter and two

thirds cup honey, 1 tps lemon extract. Set in pan of hot water. Bake 45 minutes in moderately slow oven (350°). Serve warm or chilled.

RUNNING WATER
Will Add To Your HEALTH... COMFORT... CONVENIENCE
Every farm or home that is receiving electric service can have Running Water for a few cents a day. And surely, no other modern service could be more appreciated by every member of the family.
Working stiff hand pumps and carrying heavy pails of water may seriously affect the health of women—and of children. Running water lightens labor and safeguards health. It makes for good sanitation which is one of the first necessities for good health.
Water without labor... for drinking, bathing, laundry, dishwashing... for barn and dairy... for fire protection... that is what an electric water system will bring to the home, and many inconveniences are eliminated in the routine of daily living. It will add to the happiness as well as the health of the entire household.
See Your Water System Dealer
There is a dealer in your vicinity who is prepared to supply electric pressure water systems. Go to him and he will give you all the facts, information and costs concerning a complete installation. Get in touch with him today. When the cost is so little there is no reason to deny yourself and your family the help a pressure water system means.
Plan a Water System installation just as you would any other improvement for your home... but plan NOW!
