BOUQUETS FOR CIVIC CLUB

The ladies of the Nyssa Civic Club are to be commended for the annual flower show they sponsor. By means of display of the choicest blooms of our gardens, it gives folks an opportunity to see what Nyssa gardens and gardeners can produce. Such shows also stimulate interest and is an incentive for better gardens. There is considerable work connected with holding such a show, not only among committee members, but for those who make the show possible by preparing displays, and such efforts should receive credit.

The ladies are already considering their next show, and may we respectfully submit the idea that it is none too early for growers to think about selecting choice seed for their annuals and the proper care for other flowers, leading toward even better displays in coming years.

RESULTS COUNT

The Oregon Highway Commission has allocated \$170,000 for construction purposes on the I-O-N highway this year, which is welcome news to the citizens of this section. Of this amount, \$120,000 is to be spent from the Owyhee river east between Rome and Jordan Valley and \$50,000 is to be used to construct a bridge over the Owyhee River.

While this is indeed gratifying to our citizens, we should stop a moment and give due credit to the persons responsible for these things. There are several persons and organizations who have been working toward securing funds to be used on the I-O-N and chief among these are our own County Court, Judge David F. Graham, Ora E. Clark and E. H. Brumbach. They have used every way possible to help in the matter and their efforts are bringing results.

Another important project which is to receive favorable consideration is the Central Oregon highway from Ontario to Burns. Bids will be let soon for the construction of the last ungraded portion in Malheur county. At a meeting held last week in Burns Judge David Graham proposed a program which was adopted at the meeting. Under this program, all ungraded sections of the Central Oregon are to be completed as soon as possible, to be followed by oiling of the highway from Harper to Bend; from Burns to Lakeview; and between Burns and Pendleton. When this road is completed it is estimated that five hours driving time will be cut off between Boise and Portland.

According to Robert D. Lytle, the 1917 road program called for the building of the Central Oregon, but instead the commission has been making super-highways out of certain routes and practically ignoring other routes. It is an encouraging sign that the civic bodies of the cities of eastern Oregon have decided to take action on the matter and when the meeting is held in Burns on Sept. 13, at which time the Oregon highway commission and Governor Martin will be present, it is expected that a united front will be presented, asking for the early completion of a fast highway from Nyssa through the Cairo junction and on to Bend to join the oiled highway there.

While the Central Oregon highway is of vast commercial importance, the early completion of the I-O-N is expected to make a vast difference to this particular section. Farm produce traveling over this road can be shipped to California markets at a greatly reduced cost, it is claimed, leaving a larger net profit for producers here.

I looked up Satisfy and it says—

SAT-IS-FY. Something that pleases, gives satisfaction; something that just suits. For example, you are pleased with a dress. As applied to cigarettes, it means one that is **MILD**—that is not harsh or bitter; one that **TASTES** just right.

Chesterfield... the cigarette that's **MILDER**
Chesterfield... the cigarette that **TASTES BETTER**
