**OPINIONS BY OUR READERS**

Would you like to see an ice skating rink in Nyssa for the benefit of our young people? Would you like to see such a place where young and old can have clean, healthful fun, or would you rather they spent their time in idleness or getting into trouble?

This is no idle dream. Right here in Nyssa we have a splendid location for an ice skating rink, at no cost, and the only thing necessary to put it across is elbow grease and plenty of it. On the lots back of Dr. Sarazins' office is an ideal location. The banks of the rink have already been constructed. All that is necessary is to eliminate the weeds and level up the land.

Here is where you come in. Next Saturday we want every man, and woman interested in the young people of this community on hand to help us put this thing over. Bring a team and scraper if you wish; bring yourself and a pick and shovel; bring something and lets all get together and in one days work, we can make an ice skating rink that will be a pleasure the whole winter long.

And further more, if some of you can bring a team and rack; we can haul in enough sagebrush, so that on New Years Eve we can have one of the biggest dedication ceremonies ever held in Nyssa with lots of clean fun thrown in.

People of this community, are you game? Will you come Saturday prepared to work for a few hours so that our young people will have a place to play this winter? Will you do this for our young people?

Or would you rather let our young people find their own amusement and then when they take a wrong step, kick them when they're down and condemn them, instead of putting in a little time now which will pay big dividends all winter toward keeping our boys and girls doing the right things.
