Cables Chevrolet Co. Plan Opening On August First

The Cables Chevrolet company expect to open their new building to the public this Saturday, August 1st, and they have invited their friends and patrons to come and view the building. The garage, said to be one of the finest in the Northwest, will be headquarters for the sale of Chevrolet cars and the company's service department.

The building was erected at a cost of approximately \$50,000 and contains 15,000 square feet of floor space. The service department will use 13,000 of this and is equipped with some of the finest machinery ever brought to this part of Oregon. The company has gone to a big expense in equipping the service department with the precision machinery, designed for the most part by the Chevrolet Motor company as the best tools for servicing their cars.

"We are very proud of our new quarters," commented Cables, "and we hope that our many friends in Malheur county will visit and inspect our new plant. We are proud, too, of the splendid support the people of this county have given the Chevrolet for 1936, and which is, in no small way, responsible for our new location."

The public has been invited to

visit their new quarters, and see their service and sales room. There will be no change in personnel in the new location, and the company will be guided by the same men who led the company for the past number of years.

ELDON McLING INJURED BY HIGH VOLTAGE WIRE

According to the Rigby Star, Eldon McLing, brother of "Slim" McLing, was injured Tuesday evening when he and another man were in the act of loading steel on a truck, preparatory to taking the steel to where a new bridge is being built.

The steel boom of the loading crane came too close to a high voltage wire, the current jumped across, and both men were knocked down. McLing was burned on the hand and received a head injury when he fell against some bridge steel on the ground. Both men were rushed to the hospital at Rexburg and were sufficiently recovered to be released last night.

Eldon visited his brother and was around Nyssa several months while Mr. and Mrs. W. F. McLing made their home here.
