Wood Sculpture

Reviewing the history of wood sculpture, states an expert, the earliest examples extant were found in Egypt, where figures were made by the ancients for the souls of the dead. The Egyptian sculptors, he said, "were obsessed with realism so that the soul would recognize where to go."

Chinese Poor Marksman
The Chinese prefer the sword to the rifle for executions because their marksmanship is not exactly perfect. A classic example occurred in Hunan Province in 1923 when a firing squad, consisting of several soldiers, missed the condemned man—and killed their commanding officer.—J. She-Les-Tian, Tientsin, China, in Collier's Weekly.

Payment in Own Coin
The universe pays every man in his own coin; if you smile, it smiles upon you in return; if you sing, you will be invited into gay company; if you think, you will be entertained by thinkers; and if you love the world and earnestly seek for the good that is therein, it will pour into your lap the treasure of the earth.

WAY BACK WHEN--

IN 1916 ONLY 1058 FARMS
HAD ELECTRIC SERVICE

NOW-14,000 RURAL HOMES
ARE ELECTRIFIED

Twenty years ago, the farm that had "electric lights" was the exception. For each farm home with electric service there were ten in town. Barely a thousand farm homes in the entire territory served by the Idaho Power had electric service - and the farm population was about the same as it is today.

Compare that with today's farms; the farm housewife has the same conveniences as her sister in town. And out on the farm cheap electricity is doing the work of many hands. Today more than 65% of the farms in Idaho Power territory are served with electricity, compared with approximately 11% for the nation as a whole. One of the accomplishments that we celebrate with this, our 20th Anniversary, is that of bringing cheap electric service to our rural territory.
