BASS-HUETER PAINT

It's Expensive to use "Cheap" Enamel

It's fun to do over furniture but don't think a "cheap" paint "will do." Your fun will prove expensive if you save on the price of paint in the can instead of on the job. The lack of sufficient oils, pigment and color in poor paint results in a brittle film and fading colors.

When you rejuvenate furniture with Bass-Hueter Quick-Drying Enamel, it's both fun and "saving." Quick-Drying Enamel brushes on easily; flows out smoothly; covers well and washes well. Let us show you its 18 lasting colors.
