The sportsmen, convening at Salem, want to take the game commission out of politics, according to the Baker, Oregon Democrat-Herald which add: "This can be achieved by the simple act of taking the governors who appoint them out of politics. Or would that be simple?" And why not? With all this experimenting with government it's worth a try. We took the judges out of politics. Nebraska is trying an un-lameral legislature. Taking the governor out of politics is a good thought to be mullied over.

Legislative Highlights

Old age pensions and milk control appeared the high spots on the current week's legislative menu.

The senate is wrestling with the pension program which the house has already passed and to which the governor is opposed. In the meantime an unusual attempt to demonstrate the feasibility of the Townsend program is under way at Cheilan, Wash., where for five consecutive months an elderly person is to be given \$300 to spend just to watch what happens.

C. C. Fleming, 63, father of five and grandfather of nine, was the first pensioner selected. He announced the following distribution of the \$200: groceries, \$50; house rent \$20; fuel, \$11; light bill \$15; medical examination and dentistry, \$80; clothing, \$40.

The state senate will hold a public hearing on the bill to abolish the state milk board this Friday night. Friends of the present setup assert the move is an effort of Portland commercial interest to put milk producers at the mercy of price manufacturers. Much stress is placed on the fact that 86 per cent of the recent price increase went to the producers and only 13 per cent to the distributors.

Seen as wedge in the campaign of the doctors to put hospital associations out of business is a measure introduced last week extending the service to be rendered under the state workmen's compensation act. The bill increases the cases in which doctors can render service to workmen and collect from the state. Friends of the hospital association setup brand it as a move toward socialized medicine which is opposed by the majority of editors in the Pacific northwest, as shown by the recent poll of editorial opinion in which 570 editors were quizzed. The National Hospital Association in a recent article in The Oregon Voter said that service now being rendered saves taxpayers large sums annually because none of these cases ever become charity cases, and the workman is given an opportunity to safeguard health and limb through a small premium insurance.

Grangers are credited with backing move to amend the present truck license law. Morton Tompkins is reported ready to do away with the present certificate of necessity and convenience of law.

Two prominent anti-labor measures loom. One would require all unions to be incorporated and under the corporation commissioner. The other would repair the damage done the present anti-picketing law by recent supreme court decisions.

Repeal of the anti-syndicalism law is in the hands of the judiciary committee. There is strong feeling on both sides of this issue.

Anti-gambling acts are expected in quantities. One bill has been dumped into the hopper making slot machines a public nuisance. Most of the interest however is centering on who will get some of the revenue of licensed gambling and how much. Finance for old age and unemployment relief are causes being considered.

With the state liquor board's recent action in cancelling twenty-six Portland beer licenses and the re-

Quickest Way to Ease a COLD

1
Take 2 Bayer Aspirin tablets with a full glass of water.

2
If throat is sore also, gargle with 3 Bayer tablets in 1/2 glass of water.

The modern way to ease a cold is this: Two Bayer Aspirin tablets the moment you feel a cold coming on. Repeat, if necessary, in two hours. If you also have a sore throat as a result of the cold, dissolve 3 Bayer tablets in 1/2 glass of water and gargle with this twice. The Bayer Aspirin you take internally will act to combat fever, aches, pains which usually accompany a cold. The gargle will provide almost instant relief from soreness and rawness of your throat. Your doctor, we feel sure, will approve this modern way. Ask your druggist for genuine Bayer Aspirin by its full name — not by the name "aspirin" alone.
