## THOUGHTS

By Beulah Barrett

Walter Sharp of Portland has introduced for the first time this year, a new sunflower. He has been growing this new sunflower in his own garden for the past nine years. He now has seed for sale at 25c per package and there is only one house handling the seed. He named this new sunflower "Governor Landon," (with the Governor's consent, of course). I wonder if this will interest the person who made New Year's resolutions to grow sunflowers in his garden this year?

As tomatoes are my favorite vegetable, I am always looking for new kind. I don't only like to eat them, I like to grow them as well, and as they are high in vitamins A, B, and C, we should all eat a lot of them. Well maybe we should, I don't know if we all need a lot of vitamins A, B, and C or not. I just know I like tomatoes awful well.

Mrs. C. I enjoyed your letter and I could just see that girl out in the snow up to her waist. I wondered about you people who were further away from the highway than we were, but if you were planning this year's garden and thinking of spring soon to come, you couldn't have been very lonely.

Mrs. D. of Idaho I am sorry I am late with your answer but somehow I did not get my column off last

Mrs. Artie Robertson won high and Mrs. L. M. Wilson second prize for guests; Mrs. Dewey Ray, won high for members with Mrs. Leslie McClure second. Those playing with members were Mesdames Robertson, Wilson, A. H. Boydell, E. D. Norcott, T. Barnes and Earl Danley.

## SURPRISE BIRTHDAY PARTY

Mrs. Dewey Ray entertained Thursday night with a surprise birthday party for her husband. The party was furnished diversion for the evening with Mr. and Mrs. George Mitchell winning the high score award. A lunch was served at the close of the evening. Guests were Mesdames and Mesdames T. Barnes, A. V. Cook, Wm. Schireman, C. L. McCoy, Sid Burbidge, Mitchell and the Rays.

## THURSDAY CLUB

The Tuesday evening bridge club met with Mrs. Leo Hollenberg with Mrs. Ray Emmott the only guest playing with members. Mrs. Artie Robertson won first prize and Mrs. Dewey Ray won second.

### TODAY'S QUOTE

"Potato prices this year are the highest they have been for 10 years, and it is just possible they won't be that high again for another 10 years. The thing to keep in mind in growing potatoes is that for every year they sell for \$2 or \$3, there are two years when they sell for less than \$1 a hundred. Unless you can grow them for \$1 you had better not grow them at all."—E. R. Jackman, extension agronomist at O. S. C.

## A Little Picture of a Big Improvement

### THE STILL

This is the most important of five new pieces of equipment which we have just installed in our dry cleaning room. It distills cleaning solvent at the rate of 50 gallons per hour. The distilled solvent is water-white, odorless and better than new. We can now clean white silks and wools in a way which will delightfully surprise you. This is the only installation of its kind in or near this city.
