A GOOD WAY TO MURDER A TOWN-

FOR the information of those who want to kill a town, some practical hints have been suggested. Kick.

Keep kicking.

One pull one way and one the other.

Go to other towns and buy all your needs. Denounce your merchants because they make

a reasonable profit on the goods they sell. Deride your town, ridicule it, stab it in the

Refuse to unite in any scheme for the betterment of the town.

Tell people that you can buy your needs a great deal cheaper other places.

Keep every cent you get, and never do anything of a public nature unless you can benefit financially.

DRIVING A PRIVILEGE NOT A RIGHT—

T is high time we realized that the operation of a motor car on the public highways is a privilege—not a right.

Every automobile is a potentially lethal weapon. Properly used, it is one of man's most desirable mechanical servants. Improperly used, it is a terrible menace to the lives, health and property of everyone in the area it travels.

Rigid training is necessary to obtain a license to pilot an airplane—yet the plane travels empty airways where, generally speaking, it cannot endanger others. Locomotive engineers must likewise undergo years of arduous experience, and must prove their physical and mental competence and responsibility before being entrusted with a train—yet a train operates on tracks, and has no traffic congestion problems. Still, in most states, we allow anyone—whether he be competent or incompetent, careless or reckless, of good habits or bad-to drive a car on crowded arteries of travel, where the slightest error of judgment may cause a death!

It is an undeniable fact that a considerable percentage of the people now driving should either be denied that priviledge or forced to undergo a period of training to make them abler, safer car operators. Some of these people are physically incapable of driving properly. Many more are mentally incapable, congenitally incompetent, or reckless. And the toll is 35,000 lives a year.

We will never solve the accident problem until we adopt drivers' licensing regulations that will keep the incompetent and reckless driver off the public roads. No man has a "right" to drive until he can show definitely that he is worthy of the "privilege" bestowed upon him.

CHANCE FOR TAXPAYERS TO DISCOUNT BILLS 3 PER CENT-

PPEARING elsewhere in this issue of the A Journal is a message to the taxpayers of Malheur County. It will pay every taxpayer to heed the advice in this notice, as it means a direct saving of 3 per cent on your tax statement.

The present law allows a three per cent discount on your taxes if paid on or before March 15th. The total savings under this law run into important money and besides benefiting the taxpayer, prompt payment also helps the county meet its financial obligations. We respectfully call your attention to the 3 per cent saving possible by paying before March 15th and believe it good business to get this discount.

CLARK WOOD COMMENTS

A plan is on foot to unionize baseball players. They could go out then on one strike instead of three.

Should the time ever come for the meek to inherit the earth, we fear there'll be a fruitless search for the heirs.

Dizzy Dean says he's tired of all the publicity he gets-which just about makes it unanimous.

A Tennessee dog had its tonsils removed. Probably the doctors down there ran out of human patients.

It Happened In Nyssa Years Ago

Interesting bits of history gleaned from the files of years

Taken from The Gate City Journal

J. T. Long is preparing to build a \$3,500 bungalow at Arcadia. F. O. ew days ago, skinning cattle which had the bad luck to break his truck were drowned in the Malheur river down while hauling a load of freight 9-18-47. 2 23, 37. \$1,300 juring the high water.
