## May 1 Deadline To Sign For 1937 Range Program

### Those Who Wish To Take Advantage of the Range Conservation Program Must Sign Before May 1

A notice has been received that May 1, 1937 will be set as the final date for signing of applications to participate in the 1937 Range Conservation Program. Range examinations will again be made under the direction of the Forest Service and by setting the closing date at May 1, they will be able to start the range examinations by June 1. This early examination will give Range Conservation signers an opportunity to know just what their allowance will be and will place the examination at a time when the range is still in good shape.

Because of bad roads the date for receiving new work sheets for the 1937 Agricultural Conservation Program is extended to March 15. In addition to extending the time for receiving work sheets, the State Committee also set up the following standards for seeds used under this program:

Southern Grown alfalfa seed from the states of Arizona, New Mexico, Southern California, or Texas, or imported alfalfa seed which contains seeds stained red is not acceptable for payment under the program nor will any imported red clover seed planted be accepted for payment except that coming from Canada which is stained violet. No payments will be made under the 1937 Agricultural Conservation Program unless seed used meets the requirements of Oregon seed laws.

Those who join with us will be taking concrete action to deprofitize war and to promote all the other civic and patriotic work included in our 1937 program."

## LEGION AUXILIARY TO DEMAND WEALTH CONSCRIPTION ACT

"United action by the American women to deprofitize war will be one of the objectives of the American Legion Auxiliary during the coming year," says Mrs. James H. Turnbull of Portland, Oregon Department National Defense Chairman, as she plans for two national defense-Americanism conferences to be held at Grants Pass and Salem March 8 and 10 respectively.

"The auxiliary will support the American Legion's demand for passage of a universal service act at this session of Congress," providing for draft of capital, industry and man power, as well as men to fight, in event of a national emergency or war," says Mrs. Turnbull. "Equal service for all, special privilege for none," is the principle of the legislation being advocated.

"The enactment of this principle into federal laws will be a most effective contribution of peace," explained Mrs. Turnbull. "With it in effect there will be no possible incentive for selfish groups or individuals to seek to involve the United States in a war for their own enrichment."
