The Community Sunday School Editor of Journal—After being absent several Sundays from Sunday School, I was greatly surprised to find 150, the largest Sunday School Nyssa ever had actively engaged in the work, the greatest work in world.

The Sunday School prepares for life. The great Webster said, "The chief end of life should be to know God and from that knowledge to love and serve him."

A greater than Webster said: "Seek first the Kingdom of God and his righteousness and other things shall be added." We never get too old for Sunday School. In fact, the older we get the more we need the school. Can we know God?—R. J. Davis.

The satisfaction that John Deere found when he gave to the world the steel plow in 1837, must have been similar to our satisfaction in representing the John Deere organization in this territory in 1937. His achievement was more than the making of a successful plow—he founded a company whose name is synonymous with quality and dependability the world over. Come in and let us show you why more and more farmers are standardizing on John Deere equipment every year.
