BUY PROSPERITY BY BUYING OREGON GOODS—

Loyal Oregonians start today, April 1, on a ten day special effort to boost Oregon products and are urging everyone to help the cause along by using Oregon produced goods during this period. Once the consumers use Oregon goods, it is believed their superior merit will encourage the continued use of Oregon products.

The development of industry in every city of the Columbia area is of vital interest to everyone in the state, Nyssa included. Larger payrolls for every section of this territory will rebound to the general benefit, and everyone should keep this in mind while shopping, and whenever possible, demand Oregon-made goods.

Some of the finest products and goods made are produced right here in Oregon. Prices are on a competitive basis, and in many cases Oregon-produced goods can be sold at a bit less than merchandise shipped from distant states or foreign countries. If we are to enjoy prosperity to the fullest extent we must be willing to help each other. We should make it a habit to buy the products of Oregon farms, manufacturers and processors. Great good should come from this campaign sponsored by the Columbia Empire Industries, and you can do your part by demanding Oregon-made goods every day in the year.

A FIRE A MINUTE IN THE UNITED STATES—

Don't leave small children alone at home! Tragedy after tragedy has been recorded where an untended child has been either killed or disfigured for life by fire. A recent case is cited by the Industrial Commission of Wisconsin. A boy of four and his brother of six months were left in the house when the parents went visiting. The boy pushed the baby buggy containing his brother too close to the heating stove. A blanket caught fire, and the infant was fatally burned.

Other accounts tell of fires started by children playing with matches. In still other incidents a stove door is opened or lids lifted off by the child and fires are started. Fatal results have often followed the pouring of kerosene on a fire by a child. All small children love to play with fire, no precaution should be overlooked in restraining them.

Parents should immediately take two steps. First, never leave your children alone at home. Second, do the simple and inexpensive things necessary to the elimination of common fire hazards. All fireplaces should be screened. Clothes should be hung at a safe distance from pipes and stoves. All heating equipment and adjuncts should be periodically inspected and overhauled. Continuous care should be taken in handling and storing inflammable liquids. Waste of all kinds, such as papers and rags, should be disposed of or stored in metal containers. The wiring of electric appliances should be checked occasionally—a frayed or twisted cord can cause short circuits followed by fire.

Every minute a fire breaks out in America. Two-thirds of all those fires occur in homes. Will four home be on that list this year—and will you and your family be subjected to a menace that may take life and destroy property?

Remember when a fuse blew last winter and you couldn't find another—and so established the circuit by putting a penny behind the old fuse? Thousands of fires, many of which have destroyed lives, have been caused by this highly dangerous practice.

Remember when a cord for your reading lamp wore through and you repaired it yourself, with the aid of a kitchen knife, some automobile tape and considerable profanity? The list of fires resulting from amateur electrical repairs would fill a big book.

Remember the cold morning when the fire was balky and, in a fit of anger, you turned to kerosene to get it going? That practice has burned down thousands of homes—and provided many a man with a n abrupt passage to the hereafter.

Remember when you noticed that your furnace doors are no longer tight, that the flues

looked to be in a sad state of repair, that the chimney shot sparks—and you decided to have those matters attended to another day? Sometimes the other day never comes?

Remember when you awakened and found the room full of smoke from smoldering cigar butt that had fallen onto the bed or the carpet? The insurance records are full of cases where the smoker in question never did wake up again in this world.

The list of careless actions that may cause fire could be prolonged indefinitely. You may take a chance a thousand times and get away with it—and on the thousand and first time it may get away with you. The man who lights his cigarette with a twenty dollar bill is not as wasteful or reckless as the man who takes a chance on fire.

CONSOLIDATION MIGHT BE THE ANSWER—

EVERY school district in this vicinity is faced with a problem of increased enrollment which is already taxing present facilities to capacity and it is only a matter of time when larger buildings will be needed in practically every district. Along with additional buildings comes the necessity for more teachers, transportation facilities and other costs to be borne by taxation.

This increase in enrollment is due principally to the heavy influx of new settlers on the lands of the Owyhee project and the prospects are that each district can expect a substantial increase in enrollment each year for the next several years.

Right now, when this thing is just getting underway, wouldn't this be a good time to consider consolidation? The idea has been advanced, that if the various school districts around Nyssa were consolidated, the Nyssa school could be enlarged to care for students from the fifth grade upwards, while the present school facilities in each of the districts could be used to care for pupils up to and including the fourth grade. This would eliminate the necessity of building three new buildings in the three districts of Arcadia, Oregon Trail and Owyhee. A uniform transportation system could be worked out by a board of directors chosen from each of the different districts.

While not exactly advocating this consolidation until we study it more, the Journal would like to hear from representative taxpayers in these districts and get their reaction to such a plan. If the majority are in favor, it should be adopted in time to put it in practice next fall.

It Happened In Nyssa Years Ago

Interesting bits of history gleaned from the files of years ago.

From The Gate City Journal April 1, 1927

Jack Lynch started excavation work on the lot next to his residence Tuesday and will erect a new bungalow.

Harold Hoxie is on crutches as a result of a sprained ankle caused from a base slide during ball practice.

The Nyssa Packing Co., are losers of a dressed hog which was taken from the slaughter house last Friday evening.

The March issue of the Oregon Business, published by the Chamber of Commerce of Portland, give an interesting column on Nyssa and vicinity, contributed by A. R. Millar, secretary of the Nyssa Commercial Club.

Wendell Pogue of Kentucky has

accepted a position in the Wilson Bros. store. Mr. Pogue is a nephew of Barney and Ernest Wilson.

Miss Juanita Bigelow, daughter of Mr. and Mrs. S. D. Bigelow of Owyhee received honorable mention in the University of Oregon paper as being one out of 91 students to win honors as having received no grades less than two.

Dwight Smith and son John Jay and Frank Fry celebrated their joint birthday anniversary Sunday with a big dinner at the Fry home.

John Moore of Ontario, employee of the Standard Oil Co., has rented the Jim Fogle house and will move his family here in the near future.

Mrs. Will Beam and daughter Rita left Thursday for their new home at Crane where they will join Mr. Beam, who has accepted a position as foreman of a large ranch in that vicinity.

Stanley Penn is digging a well for J. Boydell, which will be used for irrigation purposes.

Ernest Wilson is the owner of a new car.

Mr. and Mrs. H. C. Garman of Omaha have purchased the Dick Shourman place just opposite the pipe line farm.

Mr. and Mrs. H. P. Slippery of the Owyhee are the parents of a son

Unison of thought!

Mighty projects are created by vision! The foundations for navigation and power dams—the reclamation of arid areas—the construction of industry—find their first impulse in the mind of man; their conception in a unity of thought by many.

Unison of action!

But great dreams demand action for fulfillment! Today in this Columbia area we make and grow a superior production! Already new jobs are being made for our people! Yes, there's action under way—but scattered! To realize our full heritage of this vision of our empire we need united action. As buyers, let's step into line with producer, merchant and worker! Let's pool our efforts! Let's purchase goods made within the Columbia basin to make our own living better.

Remember to ask... WHERE DID IT COME FROM? Buy Columbia Empire products—and buy yourself prosperity!

**"Unite for Prosperity"**

born Saturday, March 27th.

Mr. and Mrs. Wm. Peutz are the owners of a new Baby Grand Chevrolet. They gave it a tryout Thursday when Mr. Peutz and son Werner attended the Turner stock sale at Caldwell and purchased a young mule colt.

Some 1930 Portland produce prices: Oats, \$59.50 per ton; corn \$74 to \$76 per ton; potatoes, 6 to 6½ cents f.o.b. station; butterfat, 70c; eggs, 32c per dozen; cattle, best steers \$11 to \$11.25; hogs, prime, \$16.25 to \$16.50; sheep Easter lambs, \$16.50 to \$17.50; hay in Portland, \$32 per ton.

George Starr who has been employed on the pipe line farm has been transferred to Willow Creek where he will have charge of a fencing gang.
