**A House is as Good as its FRAME**

LOOK UNDER THE ROOF!

If the frame of your home is made of green or poorly seasoned lumber, it is going to shrink and warp. This will cause uneven floors, sticking windows, sagging doors, and more serious defects that will result in later costly repairs.

**Kiln-Dried & Seasoned Framing Lumber Makes Better Construction**

The one SURE way to get seasoned lumber is to specify 4-SQUARE Lumber. Each piece of 4-SQUARE is thoroughly seasoned before it is allowed to leave the mill for the local yard.

In addition, 4-SQUARE has squared ends; comes in exact lengths; and has other refinements, including the 4-SQUARE trademark on each piece to assure the quality.

A house is as good as its frame! Let that frame be built with 4-SQUARE Lumber!
