BOND ELECTION CALLED FOR AUGUST THIRD—

NYSSA will have a chance to step out with some very pleasant improvements if voters approve bonds to be voted on August 3rd. Principal improvement contemplated is a city hall; something which has been needed for some time; and more especially now that the city has no suitable place to conduct their business, or to hold public meetings.

Plans which have been discussed do not contemplate an elaborate building, but ample to care for the city's needs at present and likely for several years in the future. The city would like to build a hall large enough to contain a room big enough to hold ordinary public meetings and also be used for council rooms; a city clerk's office; office for the police department; space to store the city fire apparatus; decent jail quarters; space for the city library and reading room; and such other rooms as may be found necessary.

An opportunity to start a city park will be made possible if voters approve bonds to the amount of \$1,000 to start such a project. Councilmen realize this sum is not enough to build an elaborate park, but by utilizing all types of labor available and with the aid of civic organizations; a creditable park can be started. Later on a swimming pool and other improvements may be added, but the purchase of a tract of land, leveling, planting of trees, flowers and shrubs is the first consideration.

It may be the voters don't want a new city hall, and possibly they are not park-minded but as a rule you will find the people of Nyssa just a little more progressive than other towns and most people expect to see both measures roll up a big majority. August 3rd will tell tale.

NYSSA BAND PROMISES TO BE BIG ASSET TO CITY—

THE Nyssa band is making their initial appearance today at the Pomona Picnic in Big Bend Park, which all aids in cementing the friendship between our farmer friends and business men of town. We feel the band should be given every encouragement, financial and otherwise; and that it be made a permanent institution.

The members of the band have been practicing faithfully, and a creditable musical organization is being whipped into shape. Nyssa folks are anxiously awaiting the first concert, preferably some summer evening and we would like to say, "in the city park."

PARK YOUR CAR IN THE GARAGE SATURDAY NIGHTS—

THE city of Burns took the bull by the horns the other day and enacted a two hour parking limit on Main Street. The council did this because the driving public which made Burns their shopping headquarters were getting pretty well disgusted with trying to shop at their favorite store, only to find all the choice parking spots occupied by cars belonging to the owner and half a dozen employees.

To a certain extent we have the same problem to fight here in Nyssa and while a two hour parking limit is hardly suitable for a city the size of Nyssa; still the idea of parking on the other side of town to shop at a certain store is beginning to tax the patience of many.

The best suggestion we have heard yet about this situation is for the local business men to do everything in their power to make Nyssa the shopping center of the Owyhee project; and one of the little things, but mighty important, is to keep business men's cars off Main street during the busy part of the week. Lots of parking space is a big asset to any city; and if necessary some vacant lots should be fixed up to provide ample parking opportunity for our country friends. If business men will leave their cars at home on Saturday evenings it would help immensely and we believe Nyssa's customers would appreciate it.

It Happened In Nyssa Years Ago

Interesting bits of history gleaned from the files of years ago.

Monday night or in the early hours Tuesday the Nyssa Packing Company was robbed of a fine dressed hog, hides, a 25-20 rifle and various tools from the slaughter house on the south-west edge of town. This is the second time the Nyssa Packing Company has been robbed.

The rooms above Wilson Bros. Store are being remodeled and rearranged to accommodate and make room for the new dental office of Dr. Norcott who is locating in Nyssa.

Mr. and Mrs. J. R. Hunter were Blackfoot visitors this week.

Mr. and Mrs. Barney Wilson and children and Gertrude and Marlin Wilson are scheduled to return today from their recent trip to Bakersfield.

Sunday was a red letter day with a goodly number of Nyssa's citizens that being the date of the big picnic at the damsite. The picnic was given under the auspices of the Nyssa Commercial Club and proved to be a most enjoyable affair.

Plenty of noise and action was evidenced Monday night at the charivari for Warren Blodgett and Roy Pounds and their wives, both newly weds. The two couples were placed in a light buggy and paraded through the streets.

Mr. and Mrs. Harry Francis spent the week end in Nampa.

The Sunshine Circle of Rebekahs were entertained at the Al Gamble home near Payette Tuesday. A number of Nyssaites were in attendance, some of the party including Fowlers, Cooks, Rebergers, Felton and Duncans.

Earliest Concert Ticket

The Etude says that the earliest known authentic admission ticket to a concert is a season ticket (price 5 guineas) for the series of six concerts given in 1764-5 in the Carlisle house, Soho square, London.

EXPERIMENT STATION CONTROL MORNING GLORY WITHOUT CHEMICALS

Morning glories are being controlled by two methods on the Union branch experiment station without using chemicals. On one patch which had become badly infested, alfalfa was seeded, and by the end of the third year no morning glory can be found. Farmers throughout many parts of the state have successfully controlled morning glories with alfalfa on land where the latter will do well. In a variation of the clean cultivation method on the Union station a potato digger was used on a small patch to bring roots to the surface. At the end of two seasons, with one crop of fall wheat in between, the

morning glories had been cleaned up.

Baked and served with fresh butter

... A GRAND FOOD!

Science has discovered that potatoes provide extra Vitamin C, readily available calcium and phosphorus, and a high content of iron and Vitamin B—all important elements to good health.

Interesting information, but not nearly so impressive as a great, big baked potato—nice and mealy—its russet jacket bursting—steaming hot—with a couple of pats of fresh butter, some salt and pepper . . . that's really something to eat. Yet, this is only one of a hundred ways of preparing and serving this marvelous food.

Nowhere are such excellent potatoes grown as in the higher altitudes, the mountain valleys, the great plains of the West, and the Pacific Coast slopes. All of these regions are served by the Union Pacific Railroad.

Efficient, rapid railroad service—specialized cars for safe shipment—brings potatoes to your table from this area every month of the year. Among the nation's railroads Union Pacific is in the front rank as a transporter of potatoes. Last year Union Pacific moved 41,422 cars of the world's staple vegetable—the nutritious, economical potato.
