## AAA Program Set

County Agent to Attend District Meet.

A series of district meetings designed to give county association leaders and county agents a thorough understanding of the 1938 agricultural conservation program so they in turn may pass this information on to the farmers of the state has been arranged for the last two weeks in October, announces F. L. Ballard, vice-director of the Oregon extension service, which is in charge of educational work in connection with the program.

Each of these meetings will be two days' duration. State officials who will attend each meeting to lead the discussion of the new program are N. E. Dod, Haines, chairman of the state committee; P. M. Brandt, head of the division of animal industries at Oregon State college, and N. C. Donaldson, secretary of the state committee.

As soon as this series of meetings is completed, a series of one-day meetings will be scheduled in each county in Oregon for all county and community committees, with those who attended the first series acting as instructors. These will be held during the first two weeks in November. Actual dates have not been set, but will be announced soon.

The third step in this educational campaign in connection with 1938 program will be the holding of a meeting in each community in which farmers planning to take part in the program will participate and elect committees for the year. These will probably come the last two weeks in November, according to present plans.

The date for the Malheur County meetin gis set for October 29 and 30.

## CHRISTMAS SEALS COUNTY CHAIRMEN APPOINTED

The list of community chairmen follow: Mrs. M. M. Greeling, Kingman Kolony; Mrs. J. L. Pope, Jamleson; Mrs. George Winkler, Brogan; Mrs. Earl Lofton, Ironside; Mrs. Dick Tensen, Nyssa; J. Edwin Johnson, Vale; Mrs. A. C. Lee, Jordan Valley; Lowell Cox, McDermitt; Mrs. Albert Hopkins, Oregon Trail; Mrs. Earl Weaver, Cairo; Mrs. J. Will Turner, Annex and Mrs. Jim Danielson, Pioneer.

## FEAR DIVERSION PROGRAM READY FOR THREE STATES

A diversion program to broaden the market and to increase consumption of fall and winter pears produced in the states of Oregon, Washington and California through the development of new export and domestic markets has been announced by the Agricultural Adjustment administration, according to word received by N. C. Donaldson, executive secretary of the state agricultural conservation committee.

## Winter Pear Production High

The program will operate through an agreement between the secretary of agriculture and the Oregon-Washington-California Pear League, Inc., an association organized by the producers and shippers of this fruit, to conduct the program for the industry. Production of winter pears in the three states represent 97 per cent of the total U. S. production of all such pears and the 1937 crop is expected to be the largest yet produced. During the past five years

Oregon has grown 37 per cent, California 32 per cent, and Washington 31 per cent of the fall and winter pear production in this area.

The program is based upon the four major varieties of winter pears grown on the Pacific coast, which are Bosc, D'Anjou, Hardy and Winter Nells. In accordance with the agreement between the Secretary and the Pear League, benefit payments amounting to 50 cents per box will be paid on surplus fruit shipped into certain designated foreign markets.

## Domestic Market to be Expanded

The program also contemplates expansion of distribution in certain domestic areas where the per capita consumption of such pears has been low. Benefit payments will be limited to pears equal to or better than U.S. No. 1 grade with an additional tolerance of 10 per cent allowed for certain defects.

The agreement applying to the 1937 crop continues a program of similar character which was begun in 1936 and resulted in a substantial increase in the per capita consumption of pears in the states to which diversions were made.

## ARMY RECRUITS SHOW HIGH SCHOLASTIC RATINGS

Major H. D. Bagnall, the Army Recruiting Officer, 323 New Post office building, Portland has compiled some interesting statistics on the educational and occupational qualifications of young men enlisted in the Army through his office during the last month.

## Educational Qualifications High

Twenty-three of the men were grammar school graduates, 17 per cent had attended high school for one year, 13 per cent for two years, 15 per cent for three years, 25 per cent were high school graduates, 1.6 per cent had attended college for one year and 3.4 per cent had attended college for two or more years. None of the recruits had less than a grammar school education.

## Farmers Lead List

The occupational qualifications were also interesting. Five per cent were cooks, 7 per cent clerks, 2 per cent carpenters, 2 per cent chauffeurs, 2 per cent coal miners, 19 per cent farmers, 15 per cent laborers, 3 per cent loggers, 3 per cent mechanics (general), 5 per cent typewriter mechanics, 2 per cent painters, 8 per cent students, 3 per cent sawmill hands, 2 per cent printers, 2 per cent ranchers, 19 per cent truck drivers and 2 per cent salesmen according to the Major's compilations.

## Vacancies Open

The recruiting officer also reports that there are still some desirable vacancies remaining in Hawaii, Philippine Islands, China, Panama and the several stations on the West coast.

## CARD OF THANKS

We wish to thank the many friends for their sympathy and kindly help during mother's illness and passing. Also for the beautiful floral remembrances.

## Eph Frost Glad To Get Back—

Mr. Eph Frost returned on Friday night from a three weeks trip to Nebraska which he made by motor with his brother Mr. W. A. Frost of Nampa.

En route they spent one night with Mr. Frost's daughter Mrs. Stanley Brown in Pocatello, Idaho, and made other short stays with relatives at Geneva and Alexander, Nebraska. Their final destination being Fairbury, Nebraska.

While in Fairbury a family reunion

was held in their honor to which thirty of their relatives were guests. Among them were two cousins Mrs. Jesse Doerr and Mrs. Carey Muller of San Antonio, Texas, whom they had not seen for forty-three years.

Mr. Frost reports that that part of the country is a real desert, having received only half an inch of rain this year and not having had a real crop for five years. There is no live stock to be seen and the people are just eking out a bare existence. So while he enjoyed his visit he was very glad to get back to Nyssa.
