Two Minute Sermons
FAITH AND LOVE
By Ernest C. Knoll
Pastor of Assembly of God

Problems Before Organized Labor
HOW the A. F. of L. and the C.I.O. will be unable to compromise their differences, is a problem that will require some real thought. That the two organizations realize that the cause of labor is lost, unless they come to some understanding, is evident to all labor leaders, and the rank and file, too.

Another Tailspin?
THERE is much speculation among statesmen and editorial writers as to the cause of depressions. They have been recurring with monotonous regularity for the past sixty or seventy years. About every five years on the average, we have a depression and spend five years recovering from it. It has come to be accepted by our statesmen as something in the light of manifestation of divine wrath, something like bubonic plague and yellow fever were once regarded by the superstitious and it has been generally agreed among our lawmakers that nothing could be done about it.

The Reason for Business
There are many business men who have lost sight of the basic reason for the existence of business and so we quote, with approval, the recent utterance of William M. Jeffers, president of the Union Pacific Railroad, on the subject.

Immediately following the first bombardment of Shanghai by the Japanese the state department of this country was flooded with appeals that this government take the necessary steps to protect American investments in the war zone.

Education, enforcement and engineering are the three vital factors that will solve the traffic accident problem and reduce the number of lives so needlessly sacrificed on our streets and highways. There is a wide divergence of opinion as to which of these three is the most important and the comment of E. Raymond Cato, Chief of the California Highway Patrol, is interesting in this connection.

Chief Cato calls attention to the fact that in one month recently in California there were 31 less traffic fatalities than in the corresponding monthlast year; also that during the same period this year there were 5,244 arrests as compared with 3,127 in the same month of 1936. He attributes this improved record in a great measure to the additional police activities. He says: "We are satisfied that control of excessive speed alone spared these 31 human lives on our highways and we are determined to keep up our efforts in an attempt to show greater improvement each month. This is

YOU CAN'T DO IT
No matter what you have to say in praise of the radio as compared with the newspapers, there are a lot of things you can't do. For instance, you can't put a radio broadcast in your pocket and read it at your leisure. You can't save a clipping from a radio broadcast. You can't stop listening to answer a knock at the front door without missing something. You can't get a line on market prices when you have but a

few minutes to spare but the program that is being broadcast has another half-hour to run. You can't find out what your own neighbors are doing, for you can listen to the radio for ever and you will never hear about the deaths and accidents, the marriages and the births, the fires and the festivals in your own community. You can't mark something of interest and send it to a distant relative by mail. And no housewife in all the world can use a broadcast for nice, clean pantry shelf covering. It's a wonderful thing, this thing we know as radio. But it hasn't taken the place of the home-town paper. And it never will. —Wilder Herald.

GOOD NIGHT
When a carpenter makes a mistake, it's just what he expected. When a garage man makes a mistake, he adds it to your bill. When a preacher make a mistake, nobody knows the difference. When a judge makes a mistake, it becomes the law of the land. When a dressmaker makes a mistake, it becomes the style. When an editor makes a mistake—Good night.—Oregon State Barometer.

It Happened In Nyssa Years Ago
Interesting bits of history gleaned from the files of years ago.
Thursday, November 3, 1910
Two new brick buildings are to be created on Main street at once. This is good news and some that will go a long way to show that Nyssa is not asleep nor enjoying one of these "hot air" booms but a slow steady growth.

S. N. Emison, N. J. Minton and George Green are going to erect a building that will be 30 x 100 feet and two stories high. The ground floor is leased for a term of five years. The second floor will be a modern opera house and will be fitted up in an up-to-date manner. Mr. Graham of Payette is putting up the joining building and this will be 30 x 70 feet and two stories high. C. C. Hunt, president, and officers of the Owyhee Irrigation District, and officers of the Kingman Kolony Irrigation District made an inspection trip to the Owyhee river last week. E. H. Test visited here on Tuesday of this week.

J. J. Thomason bought what is known as the Freeman residence. He rented it to W. B. Hoxie who in turn rented his house on Main street to E. H. Super.
Send your friends a Nyssa Fruit Card. Nyssa Pharmacy (ad).
W. L. Gibson was in Weiser on business the first of the week.

Miss Van Buskirk visited at the Farmer home last week.
J. W. Crockett returned from his mountain last Friday evening. He had been gone about three months. The Nyssa Brass Band has employed Prof. Phillips as its instructor and ferge to the front under his directorship.

A. C. Sarazin returned last week from Meadows, Idaho and Payette Lake where he has spent the summer.
Mayor Teutsch returned Wednesday from Portland.

S. D. Goshert visited the Council country last Saturday on business.

Oregon Traffic Deaths
A Series of Weekly Articles on the Problem of Highway Safety—By Earl Snell, Secretary of State.

the first time in nearly three years that we have shown a reduction and I am satisfied that enforcement alone is our immediate answer to the problem insofar as we understand it today.

While I do not believe that enforcement alone is the answer to the problem, Chief Cato's experience in meeting a deplorable situation must carry great weight. Every enforcement agency in Oregon has responsibility to meet if results are to be accomplished. Excessive speed continues to be a contributing factor in many fatal accidents.

Consider these things, keep your car under control at all times, and help eliminate Oregon's traffic deaths.

Depression Ingredients—An economic recession in the midst of recovery, a formidable slump in stock prices; a fight in the ranks of labor; an attitude of extreme caution among bankers; a sense of uncertainty among business men; and a "ong-faced budget still lurking several corners away from its balance. such ingredients, a business executive confides to Clearway, contain the makings of another depression. But, says he, since many neutralizing agents are at work, a depression is by no means inevitable unless—mark this—unless people become prey to panic.—Christian Science Monitor.

Early Ohio "School Bell"
Instead of a bell to ring in calling the early Ohio children to classes, the teacher would pound on the side of the school building or on an old bucket with a stick.
