## AIR RACE WINNER HONORED

Frank W. Fuller, Jr., prominent San Francisco business man, is receiving an ovation from the entire Pacific Coast following his return from winning the classic Bendix air race, Los Angeles to Cleveland. Mr. Fuller is shown here being congratulated by Major Seversky, builder of Fuller's huge plane which was fuelled with the new Shell 100 Octane Aviation Gasoline. Fuller has been flying on business and pleasure trips for years but never before entered into racing competition.

## RED CROSS MANAGER URGES GREATER EFFORT IN HIGHWAY FIRST AID WORK; HALF-MILLION ENROLL

SAN FRANCISCO, November 25.—As the American Red Cross Roll Call was brought to a close today (Thursday, November 25) A. L. Schafer, Red Cross manager in the Pacific Area, said early returns indicated an enrollment approximating a half-million members in the Pacific States toward the national objective of five million members.

## Asks Increased Support

Voicing a note of Thanksgiving to the public for its increased support of Red Cross activities, Mr. Schafer emphasized the urgent need today for more help in the campaign to save lives by reducing the number of accidents on highways and in homes.

At the same time he called upon every Red Cross unit, every Red Cross supporter, to concentrate their efforts during the next two months on the establishment of more Highway Emergency First Aid stations. Mr. Schafer said:

"National statistics show a 9 per cent increase in automobile fatalities during the first nine months of the year; 28,140 as against 25,710 a year ago. Prevention of this tremendous loss calls for greater effort on the part of every individual who can lend assistance.

## Stations Enumerated

"The Red Cross has established 338 fixed stations and 113 mobile units in the Pacific Area, all operated by volunteers. Nationally there are 1,990 fixed stations and 1,175 mobile units. Some of these volunteer first aiders have saved lives of auto crash victims, others have greatly alleviated suffering of injured persons. A good start has been made, but more stations and more workers are required.

"Stations now extend along the main highways from the Mexican to the Canadian borders and from the coast to the Rockies within the Pacific Area. San Diego, California, Chapter whose jurisdiction extends the farthest south has established 10 emergency first aid stations. The Bellingham, Washington, Chapter, the farthest north, has 9. These are top marks for other Red Cross units to achieve.

"Elsewhere in Washington, the Spokane Chapter has 6 emergency stations; Yakima Valley has 5 and Grant County Chapter, Ephrata, 4.

"Among the Oregon Chapters, Baker has 5; Astoria 5; Clatsop County 5; Umatilla County, 4; Josephine County, 4; Douglas County, 4; Lincoln County, 4.

"Leaders among the California Chapters are Los Angeles with 8; Tehama County, 5; Shasta County 4; San Jose, 3.

"In Arizona, Yuma and Maricopa County Chapters each have 4 highway emergency first aid stations. Shoshone County and Bannock County Chapters in Idaho each have 4. In Utah, East Millard County and Utah County Chapters also have 4 each."

## Oregon Third in Stations

Mr. Schafer announced that special and general field representatives throughout the Pacific Area during the next two months will give special help to some 175 Red Cross units which have not yet reported the establishment and maintenance of highway emergency first aid stations. The latest compilation covering fixed highway emergency first aid stations shows Arizona, 11; California has 54; Utah, 6 and Washington 53.

Eastern visitors to the 1939 World's Fair on San Francisco Bay will have a choice of seven major transcontinental routes.

The centennial of the express business in the United States will be celebrated at the 1939 Golden Gate International Exposition on San Francisco Bay.

## Health—His Heritage!

This little boy was flat on his back three years ago—he had tuberculosis of the spine. Today his rugged body and smiling face are a joy to see. Sunlight, or heliotherapy, fresh air and rest, under medical supervision, have given Tony back his heritage of health. Tuberculosis of the bones and joints is a form of disease more common among children than grownups. Thanks to science and to the public's increasing realization that tuberculosis, when taken in time, is curable there are thousands of other boys and girls being restored to health in tuberculosis hospitals throughout the country. Christmas Seals helped Tony and they are helping these other boys and girls.

## WALTERS' DEBATES STARTED

Nyssa Student on Team

COLLEGE OF IDAHO, Caldwell, (Special)—Preliminary rounds of the Walters' debates started here this morning under the direction of H. H. Hayman, Director of Forensics. The debates are intramural in nature and are held each year under the sponsorship of the Assistant Secretary of the Interior, Mr. T. A. Walters. Mr. Walters donates prize money to the extent of twenty-five dollars to be presented to the winners.

## Elimination Contest

The winners are picked by process of round robin elimination until two teams are left. These teams then debate and the winner is declared champion. The question being debated this year is the Pi Kappa Delta question. Resolved: that the National Labor Relations Board shall be empowered to enforce arbitration in all industrial disputes. The debate series will close December 3, with the final round.

Debaters participating are Margaret Pinkerton of Nyssa, Katherine Conger of Caldwell, Marjorie Miller, Charlotte Stone, George Greenfield and Hugh Williams of Caldwell, Bill Kyle, Monmouth, Illinois, R. H. Young, Jr., Parma, Clarence Sapp, Robert Sower and Don McClenahan of Nampa, Arthur and Everett Vay Slyke of Huston, and Robert Smylie, Cresco, Iowa.

The 400-foot-spire to the Sun of San Francisco's 1939 World's Fair will be lighted with intense white on the outside, a rose red within.

## LAND USE UNITS NEAR COMPLETION

Tri-State Project to Restore Lands Acquisition of 556,655 acres of depleted farm, range and forest lands in Oregon, Washington and Idaho and development for grazing, forest and recreation uses is rapidly nearing completion, announced Harry G. Ade, acting in charge of land utilization for the bureau of agricultural economics, USDA.

The four projects in the region and the total acreage in each, including lands not to be acquired, follow: Southeastern Idaho grazing area, Oneida and Cassia counties, 386,845 acres; Northeast Washington forest area, Stevens and Pend Oreille counties, 515,078 acres; Central Oregon grazing area, Jefferson county, 172,240 acres, and Oregon coast range forest area, Tillamook, Lincoln, Lane, Douglas and Yamhill counties, 965,400 acres.

"Checks totaling 11,405,795 have been delivered to 1,415 vendors for their holdings and title clearance work is rapidly being completed on the remaining acreage authorized for purchase," Ade said. "Most of the families who have received their checks have been successful in relocating on productive farms in established agricultural communities or satisfactorily reestablished themselves.

"Development work, carried on for the past two years under the Resettlement Administration is being continued in cooperation with WPA giving employment to 806 men in the four projects. Many check dams, storage reservoirs, salting grounds, spring developments and other range improvements are being completed in the areas developed for grazing, while lookout towers, camp grounds, guard stations, stream improvement, fire hazard reduction, roadside beautification, reforestation and recreation facilities constitute forest area developments."

Began under the land policy section of the AAA and continued under the Resettlement Administration, jurisdiction over the land use and land use adjustment activities was transferred to the bureau of agricultural economics with formation of the Farm Security Administration.

Ade said that land use planning activities including county land use classification studies, flood studies and similar practical research are being continued as a major activity in the land utilization program.

## OREGON WHEAT LEAGUE PROGRAM

La Grande—One of the strongest programs in the history of eastern Oregon Wheat League is announced for the annual convention to be held here December 3 and 4.

Officers of the league, headed by President C. A. Nish, Mikkelo, have received acceptances to appear on the program from Governor Charles H. Martin, George E. Farrell, AAA administrator for the western states; J. D. Ross, administrator of Bonneville dam; C. C. Chapman, editor of the Oregon Voter, and other civic members of the O. S. C. experiment station will, as usual, report on late developments of interest to the wheat growers.

State Officers Report The tenth annual convention will open here with the state officers' report following the usual preliminaries, after which C. A. Howard, president of the Eastern Oregon Normal, will speak on "Education and Its Relation to Agriculture." "Development of the Columbia and Snake Rivers," is the next subject, to be discussed by W. B. D. Dodson, Portland.

## Program and Banquet

Director Farrell will head the Friday afternoon program with an address on "An Agricultural Adjustment Program for the Northwest." Dr. D. D. Hill of OSC, and D. E. Stephens of the Moro experiments station, will report on trashy summer fallow and grasses for eastern Oregon. The labor situation will be Mr. Chapman's subject.

At the annual banquet Friday evening, ex-Senator Fred Kiddle will be toastmaster, and Governor Martin the principal speaker. Saturday morning's schedules "The Commodity Exchange Act," by Lewis E. Wolf of Seattle; Oregon Weed and Seed Laws, by G. R. Hyslop, OSC; "Bonneville Power,"
