HOW WE WASTE OUR TIME IN SCHOOL—

How others waste time in school I don't know, for I'm so busy wasting time and rushing to make it up that I haven't the time to watch others. I get to school just one minute before the bell rings and meet my antagonist in the hall. "Gosh!" she says tantalizingly, "You never could guess what I did last night!" She then relates all the thrills of her romantic evening and ten minutes later I rush into typing class. I run to the office for an excuse, back to the commercial room, and settle down to typing about 8:30. There is a half an hour wasted.
 At the beginning of shorthand, I remember I need a notebook, and I slip quietly out of class and race to Fox's store. I buy the notebook and start out the door. "Whats that?" None other than my favorite candy bar, which I purchase. When I get back to the door I stuff the rest of the bar in my mouth, taking about ten minutes to get it swallowed, new lipstick applied, and an innocent look on my face. The minute I get outside someone says, "I smell candy!" By the time my explanations are made, another half hour is wasted.
 After shorthand comes French. After reciting for awhile and, believe it or not, studying a little, I happen to think of a committee meeting that should have been held three days before. I run to all the rooms, getting everyone together and finally the meeting is over. Thirty minutes have elapsed again.
 In English I sit in a perfect position for playing "catch," so as soon as recitation is over I start that. Gosh! how the time does fly. In my study hall usually more than thirty minutes are wasted. Then I go to history, where I get in a heated discussion with my neighbor and waste more time.
 So you see—I waste about one-half of every hour I'm in school. It seems I'll never catch up. Let me think (if possible.) We go to school seven hours a day, five days a week, four weeks a month, nine months a year—Say! Who started this anyway?

Advice To The Road-Worn

E. W. PRUYN, Auto Repairing
 Nyssa, Oregon,
 Gentlemen:
 My headlights are almost swollen shut, and my fenders and body are twisted into such horrible positions I can hardly write this.
 I hit a horse the other day. Never mind how it happened—I know it hurt him, poor fellow, and it nearly killed me. And I was so proud of my beautiful fenders and attractive curves.
 I use to be beautiful—my big Masterful Buick told me once I was the trimmest young car he'd ever seen. And now—I look like an old wreck. Even my lovely complexion is gone.
 I've heard your garage can do wonders with bent, smashed cars. Please help me, before my Big Six calls again. I couldn't bear to have him see me this way.
 In despair,
 Sub-Deb Chevy.

Dear Sub-Deb Chevy:
 Give us a week, and we can straighten you out as good as new. A little patching, some fresh paint, and we'll have you as good as ever. Then too, we'll fix your engine so you'll run smooth as can be.
 Yours truly,
 E. W. PRUYN, Auto Repairing.

They also selected a style of dishes for the school and ordered 100 plates, cups, saucers, and dessert plates. The dishes will be paid for by the Girls' League, and the aim of the League for this year is to earn money for that purpose.

 —N. H. S.—

COLOR DAY—

 The date is set for January 14, because it is the day before Nyssa's biggest basketball game.
 A committee of girls from the Girls League is making blue and white flowers to be sold Friday at school and at game Saturday evening for ten cents.
 Those not willing to show school spirit by buying these flowers and wearing school colors Friday at school and Saturday evening will receive dire punishment! This means teachers and basketball players, too!
