Things About Nyssa's Shops

Ist thy store place cluttered with things long done with and unused and thou art in a wonderment as to what to do with them. Above all do not throw them away nor destroy them, for among us there do dwell many who have nothing and these same things that do seem so useless to thee will mean munificence to them.

In the gray twilight after a day of steady down pour and constant deluge that drenched the whole world seemingly and left it damp and sodden with slimy muddy puddles filling the low spaces and with never a rift in the sky for a promise of its ceasing, a flock of wee birds flitted and twittered in the boughs of the stark and unleafed trees out side our window. 'Tis supposed to be a sign that the sun be close behind the dark clouds, and that very soon it will rend them and then the clouds silvery lining will be shining. Perhaps 'tis so but we give it only as hearsay, however an hour later, the rain had ceased and the setting sun beamed out.

It didst come to us that if perchance we mortals couldst when dark clouds seem to engulf us with no sign of rift or promise of a sun shining couldst remember the birds chirping in the rain, we too might lift up our heads and look out and see the silver lining through the blackness and a bright sun shining.

Nyssa's Rialto be expanding. Almost every day there be some thing new in business activities added to these long established. This week it be a new plumbing shop, owned by a genial gentleman, Mr. Chas. V. Starks who doest come with most excellent references and recommendations and who will carry an established line of fixtures and furnaces. We do know that he has arrived at the right place and extend to him a hearty welcome.

Also there be another thing that we have had need here for some time and while the office and shop be established at Ontario still we do have the benefit of its excellent work and low cost. This be the Laird's Auto Body and Paint Works. So now when thy fenders on thine omnibus be bent or thy cabriolets shape battered past the point of recognition, take it there and Mr. Laird, a fine and honest man we know, will see personally that thou do get a first class job at a fair price and this place do be close by that thou wilt not need to waste thy whole day in getting there and back. If thou art of a mind to fix the old bus up for another year and dress it up in a coat of new paint let Mr. Laird have the first bid for thy work and we do feel sure that after much searching to better it he will also get the last bid and the job as well.

Hast the moisture that has been constantly dropping upon us from the heavens above these last few days found its way to the "Elizabeth's" innards and she hast developed a balkiness unknown before. Ed Prun at his garage on second near Main be the man for thee to see. He be up on all these temperamental automotive babies and wilt soon have that cantankerous bus of thine running as smoothly as before.

Doest know that one of the safe guards against colds and all the ills of the same ilk be to keep thy feet

dry at all times. Rubbers and galoshes in good repair these damp clammy days are a safe guard to health and a saving of thy monies in the long run. Alexander's in Ontario do carry a fine line and now do be offering them at most attractive prices that thou canst well afford new ones to go round.

And while thou be buying new rubbers arounds the family forget not that the family bus too wilt serve thee much better and with lessened hazzard of accident if its rubber be new with heavy well defined treads. Taylor Gudmundsen at his Texaco Service Station doest have a brave showing of tires and at a reasonable cost. Talk thy tire troubles over with him soon.

And speaking of rubber tires hast thine husband been trying to get thee to take at least a passing glance at those new John Deere tractors all decked out in huge snazzy tires that enables them to amble down the best of roads at any time of day or night. Wes Browne do be selling them at the Baldrige Implement company, so if thine spouse do be pestering thee to take a look at them and don't tarry to do so, and then thou wilt agree with him that in order to get that land in right this year he'll be needing one. And so easy do they look to handle that thou wilt be teasing him to teach thee how.

With a new tractor thy John wilt be needing a few accessories to go with it and over at the Fox Sales Yard on each Saturday they do be selling these things that will give thee long service and at a price far below thy fondest hope. Trot along with thy John and see for yourself.

Didst read where Mr. Hann had bought the stock at the Olsen Second Hand Store. 'Tis so and he be refurbishing and rearranging his stock in fine fashion.

Hast thou escaped so far with out a defroster on thy windshield?

Get not too optimistic or it may turn out to be skin to pride, and drop thee with a thud. In the midst of a heavy freeze. For just one drive on a slippery fog-blanketed road with ice freezing on thy windshield without one, may cause thee or thine a life. At the Powell Service station on Main at Second they do carry two excellent makes of these answers to an harrassed driver's prayer. Be not fooled June and the possibility of a hard freeze be four months away and in that time any thing may happen.

But with good tires and a working defroster to aid thee, let not the weather deter from an evening entertainment. Each and every night at the Nyssa Theatre there be a good show and one that thou wilt not want to miss and thou canst not spend an evening any more comfortable nor happily.

And when thou art done with the show forget not that Omer Adkinson be a first class chocolate-maker as well as a prescription maker-upper and at the Owyhee Drug Company store next the Theatre thou canst have thy drink and fill thy medical needs at the same time.

Or ist thy mind on a quiet even at home with perhaps a good magazine to read in bed? Then we do advise thee to accelerate thy celerity and get thee to the Nyssa Pharmacy where thou wilt surely find something readable to please and candles of many sorts to aid a crunching good time to thy quiet hours.

But on the following day, ah that may be another matter. Thy scales may tell thee a sad, sad story. But make a face at it for what matters a pound or two added to thy girlish figure when Barney Wilson doest carry such a fine line of fruit juices and such at his grocery store that a liquid diet for a day or so will be nothing short of a pleasure.

And just for variations treat thy self to some of those delicious bouillon cubes that come wrapped up so neatly in cellophane which the Nyssa Packing Company doest sell at their meat counter.

Now Willard Jackson in his knot hole news does tell thee many a joke to make thee smile.

His fine building materials at a reasonable cost too will turn the corners of thy mouth upward with glee but they are no joke, but well worth investigation.

To look thy best in weather such as these past weeks have brought us be task indeed but forget not that The Nyssa Tailor shop ist ever ready and well equipped to take the shine out of the seat of John's pants and the forlorn droop out of thine own garments.

Do not forget either that when you do be wishing for something new and different to do, that in Ontario there be two superior movie houses. The Pix and the Roxie where the latest pictures are to be seen.

At the Cash Grocery they do have a full line of fine groceries and do carry an exceptionally fine lot of requisites for the late evening snack.

And remember if thou doest have a bare cupboard and company at the same time that Mr. Chadwick at his grocery store and auto camp doest remain open late at night and on Sundays and can save thee thereby from embarrassment.

At the Boise Payette one may purchase not only the very finest of building stuffs but a high grade coal that burns warm and long as well and paints and varnishes and other things too numerous to mention. Whatever it be that thou may need to build or refinish or decorate thy home thou canst be sure to find it there in large or small amounts.

Now thou mayest have the finest tires and a defroster and gold knobs and what not upon thine Elizabeth's exterior but without gas, and that good, in her innards she's sure to do thee wrong and not give even one faint lurch. So beware. Take her into Art Norcott at that good service station at Second and Main and let him keep her filled up.

Shop in Nyssa with Journal advertisers and ye wilt not waste thy time and thy gas going farther.
