Treatment for Acne

By DR. JAMES W. BARTON

ALTHOUGH a definite organism has been found in smears taken from the pus in pimples (acne), this ailment is not usually transferred from one patient to another.

As acne comes on at puberty, thirteen to sixteen years of age, most physicians now agree that the symptoms are due to some gland change which affects the oil in the little oil glands of the skin; it becomes thick and hard and so cannot escape readily to the surface of the skin through the little hole. As the oil gradually accumulates in the gland and cannot escape, the gland enlarges, the oil now a hard mass, becomes infected. Some pimples contain just the hard oil while others contain pus.

Pimples disfigure the skin and cause so much embarrassment that the individual is apt to develop an inferiority complex which interferes with business and social progress.

The Modern Treatment. Formerly treatment was by salves and lotions, cutting down on certain foods, and keeping the intestine active. Today the internal treatment is by some gland extract—usually pituitary extract—and the external treatment is by X-ray. In fact, X-ray treatment is considered the best single treatment.

What is known as the viosterol treatment discovered by two members of the staff of the University of Chicago—as used on themselves and later on a number of students—has given excellent results in many cases. Ten drops of viosterol were taken daily in a half glassful of water, gradually increasing the dose until at the end of two weeks 20 drops were being taken daily. Twenty drops were taken daily for two more weeks. The treatment was repeated after an interval of 10 days. Then followed the gland treatment—anterior pituitary—administered twice weekly for two months.

As to Left-Handedness I can remember sitting in class in my early school days and seeing a teacher come unexpectedly upon a youngster writing with his left hand. The youngster received a sharp blow with a ruler, pointer, or other object. In addition the teacher took pains to tell the youngster and the class in general that left handedness was a physical defect just as was spinal curvature, round shoulders, knock knees and flat feet. In fact there might be something wrong with the brain itself.

From time to time during the past 15 or 20 years, research workers have shown that left-handed youngsters are at least as bright as other children, and have no more defects—epilepsy, bed-wetting—than normal children.

Some months ago Dr. Joseph J. Michaels (Boston Psychopathic hospital) and Dr. Sylvia E. Goodman (State Psychopathic hospital, Ann Arbor, Mich.) in the Archives of Neurology and Psychiatry, recorded a study of 468 children of whom about 11 per cent were left handed. Their figures show that among these left-handed children there were no more cases of bed-wetting, temper tantrums, sleep disturbances, dreaming and failures in school than among those who were right handed. There was, however, a slight association of stammering, thumb-sucking and nail biting with the ones who were left handed.

The results of these investigations would show that while left-handed children are as bright as those who write with the right hand, they are, to a slight degree, more nervous because stammering, thumb-sucking and nail biting are definitely "nervous" symptoms.

Returns From Vacation—Mr. and Mrs. William Schireman and their children returned Sunday from a two week's vacation trip which took them to Yakima and Lewiston.

SOCIETY

BOTHALMEY-TENSEN At the flower banked altar of the Kirke o Heather in Glendale, Cal. Tienna Tensen of Nyssa plighted her troth to William E. Bothalme, junior of Hollywood at a late afternoon wedding on Saturday July 2, with the Reverend E. Phillips reading the Methodist Episcopal ring services before about seventy-five relatives and friends of both families.

The bride was given in marriage by an old friend of the family Mr. Delno Gibson as her father was unavoidably detained in Nyssa, her sister, Mrs. Grant Rinehart of Nyssa acted as matron of honor and her younger sister, Louise, was maid of honor. Best man was Cyril Lyndon of North Hollywood, brother in law of the bridegroom.

The brides gown was cut long with the new flowing lines and the full length veil was held in place by a wreath of orange blossoms. Her bouquet was a sheaf of lilies of the valleys and white roses.

Following the church services a reception was held at the home of Mr. Lyndon and the young couple took the plane for San Diego where they spent a short honeymoon and are now at home to their friends at 4322 Bakman avenue North Hollywood.

Mrs. Bothalme is well known in Nyssa having been born here and attended the local schools until she entered Oregon State two years ago where she met her husband.

She is the eldest daughter of Mr. and Mrs. Dick Tensen who for many years have been active in the business, civic and social life of this city. She is the sister of Mrs. Grant Rinehart of Nyssa and the granddaughter of Mrs. Betty LaPrenz.

LICK-JENNINGS At a quiet ceremony at Weiser on Saturday Miss Kaddene Jennings became the bride of Duke Lick with the Rev. Farmer of the Methodist Episcopal church reading the ring services.

Mr. Lick is employed at the Vale Supply company in Vale and Vale is also the home of his bride although she has been employed for several months in the offices of Frank Morgan in Nyssa.

The young couple will establish their home in Vale but Mrs. Lick will retain her position here as well.

JEWELRY NEWS

You will find fashion thrills a plenty in the realm of jewelry this season. Most unique and much to be coveted is a handsome brooch and bracelet two-some carved of cat's paw to simulate quaint Viennese stag horn jewelry. These stag horn fantasies complement small tailors to perfection. Pictured at the top is a fair equestrienne of the historic Greenbrier Hunt club at White Sulphur Springs, West Virginia, wearing a cat's paw "set" of this description. And have you seen the amusing little circus figures made of cat's tail style-alert young moderns are wearing clipped on the lapels of their tailored suits or pinned brooch fashion or used as buttons and on buckles? Below to the left see pictured a charming young lady who brightens her black crepe gown with a clown clip and a drum belt buckle. To the right a vivacious subbed wears an elephant clip with combination clown and drum buttons on her wine-colored two-piece jersey slacks.

DANIELS-JUDD Ernest E. Daniels and Marva Jane Judd of Molalla, Ore., were married Sunday, July 10 in Payette by the Reverend Shuman of that city. Witnesses to the ceremony were the bride's mother, Mrs. E. R. Judd, an aunt, Mrs. Charles Harris, and Mr. and Mrs. Sam Caldwell of Nyssa.

The young couple are making their home in Nyssa, Mr. Daniels being teller at the Nyssa branch of the First National Bank of Portland.

FIRST BIRTHDAY

Ronald, the young son of Mr. and Mrs. C. W. Buckner was the center of attraction on Sunday when his parents entertained with a lawn supper in celebration of his first birthday even to the cake with a lone candle decoration. Their guests were Mrs. Buckner's parents, the Reverend and Mrs. E. P. Lawrence of Caldwell and her sister Mrs. Bob Pusey and her two children Belle and Bill also of Caldwell.

STORK SHOWER

On Tuesday Mrs. E. D. Steinke and Mrs. Dell Byram were hostesses, at a stork shower complimenting Mrs. Thomas Derock. Twelve guests were invited to a lawn luncheon, following which the guest of honor opened her many nice gifts and the afternoon was spent in visiting.

CHOOSE POLKA DOT

Dots, dots, dots are repeating and repeating in the newer silks. Here pictured is a very up-to-the-moment young fashionable wearing a direction double breasted daytime dress styled of smart polka dotted silk. You have the Paris angle of a leading summer style trend when you choose dotted patterns. Note the oval-shaped bib of gathered white net and a tie of white pique. The white pique director's bonnet she wears is the "last word" in millinery showings.

SOME HIGH POINTS IN LATE FASHIONS

Dresses and coats alike have a tendency to pull fullness to the rear or the side with draping, plaits and panels. Long sleeves are by no means out, but many designers, like Lucile Paray, show elbow sleeves for everything, including coats.

Equally as popular as the skirt-and-jacket ensemble for sport and daytime wear is the dress with its own jacket or full-length coat. Jackets are moulded to the waist and unbelted; generally single-breasted, simple in line, but feminine in appearance. Down to the hips is the usual length, but Mainbocher shows them tunic length, and Chanel likes waist-length jackets and boleros, many with little bustle-like peplums.

Smartest Spring Dresses Are Seen Featuring Lace

Some of the smartest street and tailored dresses seen this spring are of lace. And not only the solid, fabric-like laces which have been and still are so popular, but the sheerer types which have heretofore been associated only with evening wear. These are seen in the simple one and two-piece versions of the classic day dresses. Sometimes they are all lace, and as often you see them in combinations of lace and fabric.

Popular Trimming

Pique for sports and informal wear; lace for dress-up occasions; organdie good the clock around—that's the way the fashion world divides the honors in trimming this season.

Evening Mode

Both the wide skirt and the straight line are popular for evening gowns.
