FOOLS GOLD OR PROPAGANDA?

ABOUT the slickest piece of propaganda
that has come into our hands for some
time, is that recently sent out by J. D. Ross, ad-
ministrator of the Bonneville Project.

What we refer to particularly is what Ross is
pleased to call "objective rates" for Bonneville.
It would lead some to believe that the prices he
sets forth for electricity would be the actual
charge now. These "objective rates" look en-
ticing, but our question is — when will these
rates be put into effect? If a private power com-
pany put out such propaganda, they would
bring down on their heads the holy wrath of all
the bureaucrats, for mis-leading the people.

Ross can come no where near these "objec-
tive rates" in the distribution of electricity un-
less there is a unprecedented gain in it's use.
And he will be still farther from his brain storm
if the Bonneville project is taxed on the same
basis as is the private companies.

Our point is this, why does Ross work so dili-
gently over "objective rate" when what the pub-
lic wants to know is, how much are we going to
be asked to pay for electricity NOW, not fifty
or seventy-five years from now.

In another portion of his weekly "release" to
the press, Ross skips over, rather lightly that
the project will "carry such reasonable taxes as
may be imposed"—which leaves the implica-
tion, we believe, that the private companies are
paying more than is reasonable. We have fig-
ures that show that the private company serving
this territory pays twenty-two cents out of every
dollar it received for taxes, which includes fed-
eral, state, county and city. And if this revenue
is lost through the establishment of a
government owned project—who will make
of a government owned project—who will make
up the loss? The answer is simple—every tax-
payer in the district.

There is no use in being silly about the situa-
tion, every one of us wants to cut the cost of our
living down, but we do not believe that, in the
long run, government owned utility is the
answer.

The tax commission has just reported that the
valuation of Oregon utilities has been raised
\$4,000,000. It is significant to note that the
power companies throughout the state lead in
the increase in valuation. Which means that
these companies are not standing still—they are
doing their share in the development of the
state.

According to Ross, residential electricity in
which lights, refrigeration, and electric range is
used, will cost the consumer \$6.25 per month.
This same set up from our local power company
costs \$7.30 (our own bill, taken at random).
Now assume that the private company is exempt
on this twenty-two cents of every dollar taken
in, and that this was likewise taken off our elec-
trical bill, we would then pay \$5.70, and this for
not only the three electrical appliances men-
tioned, but for water heating as well.

Another rather enlightening (?) statement
that Ross makes is that "Full control thus is left
to the public districts and cities"—now no one
who has anything to do with ANY government
project will swallow that statement. This "con-
trol" will be tied up with red tape from one end
to the other, just as is every other project over
which the federal government holds sponsor-
ship. These "administrators" are too jealous of
the power they hold over their projects to re-
linquish it to the lowly common citizen.

PARMA LUTHERAN CHURCH

A. A. Schmidt, Pastor

On this Sunday before Christmas
we extend an earnest call to men
everywhere to come and worship.
This year Christmas comes to a
world in turmoil. In that world into
which the Christ once came to bring
good-will; over which the celestial
harmonies of angels once sounded
in a hymn of peace, there today one
hears the threatening rumble of
tanks, the ghostly crack of guns, the
fiendish burst of bombs, the deadly
destruction of fleets, the destruc-
tive maneuverings of armies, the
dreadful rumors of wars that make
men's hearts fail. But to those
hearts that have been opened to
hearts that sing of the everlasting mercy
as the dusk grows gray on Christ-
mas eve. There is peace on earth
in the quiet hearts of those who know
that the heavenly light will not fade
from the blackening sky. Above the
manger, stars are bright for those
men and women as humble and
great as the shepherds, who will
kneel down and adore the Christ-
child. America needs more such
men and women who will make
room in their lives for Christ. That
way lies peace and good will among
men.

Come Sunday morning and pre-
pare your heart for a full measure
of Christmas joy.
