FOR BETTER AMERICAN CITIZENS

MONDAY saw the Idaho-Oregon Japanese Society dedicate their social hall. Anyone who attended that celebration could not help but come away from that hall with the feeling that here indeed is exemplified the true worth of Democracy.

The program was typically American—Speeches, exhorting the American born Japanese to become better American citizens, Christmas Carols, athletics, musical programs (only one of which was in the Japanese tongue) and finally dancing.

The Society can feed proud of the building that has been erected—it would do credit to a community much larger in population, but better still is the spirit for which the building will be a monument to the coming generations of Japanese, born in America—the spirit of trying to develop better citizens.

Our congratulations to the Idaho-Oregon Japanese Society on the erection of their fine building and may their hopes for better American citizens be realized to the fullest.

WASTEFUL GOVERNMENT'S BEST FRIEND

MANY oil companies advertise the price of gasoline in this fashion: "Gas 15 cents a gallon; state and federal tax, 6 cents; total, 21 cents."

If similar methods of illustrating the price of all products were employed, the American consumer would get the shock of his life.

When you buy a five-dollar pair of shoes, a dollar or more is for taxes. When you pay a three-dollar electric bill, 50 or 60 cents represents taxes. When you buy a forty-dollar suit, close to ten dollars goes for taxes.

You can't dodge taxation—unless you're a hermit living in the hills. On a normal day, you pay taxes a dozen times, though you may not know it—when you drive your car, ride a trolley, eat lunch, or make a purchase. When the American people get this truth through their heads, there will be a drive for economy in government that will get somewhere. For ignorance of the facts is a wasteful government's best friend.

THINGS ONE REMEMBERS

By R. M. Hofer

IN a conversation with one of the nation's leading bankers, I gained a new impression of banking. This banker said:

"People think of me as sitting on top of the world on a pile of money—my money. They don't stop to think that it's their own money that I am responsible for protecting. It doesn't seem to enter their heads that I am just a paid hand, that I lie awake nights worrying about my responsibility of caring for that pile of money which can be claimed by its owners, the bank's depositors, at any time.

"A bank that did not loan money to businesses and industries that maintain a local community, would not be patronized by the people, and it wouldn't deserve their patronage. This means that if a community fails, a bank has to carry a great share of the load. People don't like bankers because they have to consider the more pessimistic side of the business picture, knowing that the public will blame the bank instead of itself for community failures which result from the many causes beyond the banker's control.

"It makes me laugh when I am pictured as sitting on a pile of money. A more accurate picture would show me with a wrinkled brow trying to figure out how to make loans that will be
