AN EDITOR'S PRAYER

BLESSED are the merchants who advertise, for they have faith in their business, and their prosperity shall increase many fold. Blessed is the woman who sends in a written account of a party or a wedding, for she shall see the details and names of her guests correctly reported. Blessed are those who do not expect the editor to know everything, but who tell him whenever an interesting event occurs in which they are interested, for they shall have a better newspaper in their town. Blessed are they who get their copy in early, for they shall occupy a warm space in the editor's heart. Blessed are they who co-operate with the editor in his effort in behalf of the community, for their town shall be known to all men, far and wide, as a good place in which to live and do business. Blessed are they who do not think they could run the paper better than the editor runs it-yea, thrice blessed are they because they are so few of them in any community.—Ex.

SUGAR BEET EFFICIENCY

S^O much concern eminates from the office office of Secretary of Agriculture Wallace and his henchman Dr. Bernhard, head of the sugar section, about the "inefficiency" of the American sugar producer. This concern is based on the "subsidy" paid to the U. S. growers and producers.

This week there was handed to us, by Albert Pfeiler, local farmer, a copy of the Pacific Rural Press in which is found an interesting bit of news concerning this subsidy. The Press quotes an official report which shows that 87 Puerto Rico growers received payments of more than \$100,000 each and two got payments above

Now it is brought to light that the American farmer is not the only one who can be accused of "inefficiency."

It might be a good idea if Mr Wallace and Dr. Bernhard compare the wage scale that is DE-MANDED of the American farmer, to those paid to tropical workers that live on fish and rice. How about the \$8 an acre for blocking and thinnings or the \$2 for the first hoeing? That does not sound like any 60 cents a day to

Farmers, particularly in beet sugar sections, as well as all other farmers should contact their Senator and Congressman, especially the latter, asking them to support the Senate amendment to the Sugar act, which would give to the American grower an increased acreage.

There is soundness in the Senate amendment -because an increased sugar beet cane acreage means less acreage in competition in the grain growing business. And Mr. Senator and Congressman—this is no time for party alignment—the farmers of this section voted for you to protect their interests—they have the right now, to demand of you a vote in favor of legislation that will shut out unfair products, produced at what amounts to starvation wages in the United States.

And to the farmers, whether sugar beet growers or not, set down NOW-write to our Oregon congressmen and demand that they vote favorably on the Senate amendment to the Sugar act. The intimation has been let out that the President has been persuaded to veto the amendment, but if we can get enough votes in the House, it may change his views on the matter.

THEY SERVE THE COMMUNITY

In URING the present "Clean-up" campaign, the citizens of Nyssa have had an opportunity to see the usefulness that the Boy and Girl Scouts organization can be put. These future citizens have helped their elders in a most efficient way.

It proves again that whatever money that is given to help these youngsters is money well spent. For they serve not only in cases such as

this, but in emergencies. And to the men and women who are devoting their time and energy to these two worthwhile organizations, must go the community's thanks -but to better advantage—co-operation. It is in their hands that rests the proper training and inculcation of the ideals set up in the parent organization manuals

Yes-the Boy Scouts and Girl Scouts also serve the community!

WE COULD MAKE A REAL JOB OF IT

A T a meeting, held last week, of the committees in charge of our clean-up week, a suggestion was brought up that seems to us to

We are speaking of the suggestion that came from members of the Nyssa Civic club to the effect that Nyssa should have a trailer camp.

There is every reason to believe that such a camp could be established. The city has sufficient ground, well located for such an enterprise. It would take away from the fire zone a hazard that is becoming a serious problem. We have an ordinance prohibiting the location of fire hazards along Main street. No attention is paid to the ordinance-principally because, we believe; there is no available place to move these trailer houses.

No stigma attaches to those living in trailer houses in our city, but there are two definite hazards attached to the location of the "tin can bungalows" on any thing but grounds prepared for them-they are fire and public health.

We can make a real job of it, the cleaning up of our city, if we follow the suggestion of our live wire Civic club.
