ABOUT LYTLE BOULEVARD

LAST Saturday, two representatives from the Burns Chamber of Commerce were in Nyssa in the interest of more travel over the Central Oregon highway, a fast, safe road to San Francisco. Both Mr. E. B. Bennett and Mr. Douglas Mullarky, had good sales talks and made favorable impressions on those that they came in contact with.

But while here the gentlemen in question said that they had stopped in Vale, and while there had been assured that the people of Nyssa and farmers living in the vicinity were very much in favor of Lytle Boulevard. That a connecting link between the John Day highway and the I-O-N it had the backing of everyone in our viciniy. THAT'S NOT TRUE! In the first place this so-called "link" is as un-necessary as a fifth wheel on a wagon! There is every evidence that the only reason this road is now a state road is to "tap" the Nyssa trading area. The county did not have the money to complete this road, but through the exchange of part of Succor Creek road the state designated Lytle boulevard as a state road, dumped $15,000 into it for improvements and leaves an important part of Oregons obligation to its farmers, that of easy access to markets, in the lap of a county that financially cannot hope to complete, or even improve a road that will connect us to the I-O-N.

The farmers in our communities have repeatedly asked for feeder roads into highway 201 and 30S—and through conversation with the leaders it can be established that they feel that Lytle boulevard is a waste of time and money.

THE OREGON EXHIBIT IS DISSAPPOINTING

WITHIN the past week we have talked to several persons from this vicinity that have been to the World's Fair in San Francico. Their praise for that spectacle of the twentieth century is unstinted—but—they are as unanimous in voicing their dissapointment of the Oregon exhibit.

The Oregon exhibit, so they say, is a fine one of western Oregon activities, of the wild-life of Oregon. It takes in everything from Pendleton west to the coast. But not a single thing is shown of our fine seed crops, our corn, nor even of our newest industry—sugar producing. We will admit of course that these things are all grown in the eastern part of Oregon, which perhaps, and generally is not, considered as part of Oregon by those living on the coast. One farmer, really interested in eastern Oregon said that he did see some corn in the exhibit, but it looked more like the sweet corn variety, rather than the excellent field type that is grown here.

And to top off this lack of showing eastern Oregon products, those in charge of the exhibit do not know the first thing about our part of Oregon!

Now it is not as if the eastern Oregon people had not put up their share of the money that has and is being spent on this exhibit—the original money put up by the state is money that comes from the taxpayers of the state—and our own county court allocated $350 as a supplemental amount to help put eastern products before the multitude that will pass through the Oregon exhibit.

It is not yet too late for those in charge of the exhibit to remedy this oversight—Eastern Oregon deserves, and is entitled to, fair representation in that exhibit.

A THOUGHT ABOUT TRAILER CAMPS

LAST week we ran an editorial suggestion of the Nyssa Civic club about a site for a trailer camp in Nyssa.

Since then several things have come to mind that seem to favor the early completion of this camp. For one thing, a convenient trailer camp site would attract to our city those who are traveling through in a trailer house, with a resultant benefit to our local merchants. For these trailer house travelers are as anxious, as a rule, to locate their trailer homes in clean, attractive locations as anyone else would be.

The cost of developing this site should be nominal, and could be made a source of revenue for the city as well. For instance, space could be marked off, say each twenty feet, with piped water and electricity to each space. Rest rooms and wash rooms could also be afforded. Fire protection could also be afforded by conveniently located fire plugs. Later, as finances would allow, a small park could be located in the center of the trailer camp block, to add to the comfort of those who would make use of the camp.

For all this, it would take less than 1000 feet of water pipe, the wiring for electricity, would seem to us could be put in by the Idaho Power company, because the company would derive a direct benefit from the camp, through the use of electricity. The rest rooms and wash rooms of course would be the big outlaw, but again—this camp could, and should be, a self liquidating project. A little consideration of the subject would bring out the details.

Dear Editor:

Will you print this message in your paper for the boys and girls?

The Garden Club reporter.

How about it, boys and girls, large and small? Would you like a park and play ground? Would you like a swimming pool and ball park? Well, here is your chance.

Some of your mothers and dads who live southwest of Nyssa have formed a Garden Club and Mr. Morgan has given them a nice piece of ground for a park and play center. Of course this is going to mean lots of elbow grease. But which of you kids wouldn't pull out a sage brush or dig a tree hole so you could play ball or rest in the shade after while.

Of course, it's mostly for the boys and girls that we are thinking, for we hope the park will grow for years, so that you and others coming after you will still enjoy it.

It's up to you to get mother and dad and all the folks out next Sunday after church. Have mother put up a lunch. Tell dad to let you have the smallest shovel. Maybe he will bring along a grubbing hoe.

Tell mother and dad that they can both belong to the club. Some of the members will be there to tell them about it. But the club wants everyone to come anyway whether they join or not and to feel that they have a part in our park.

This park is going to be called Morgan park, named for Mr. Morgan and is located at the corner of Highland Drive and Enterprise ave., in Richland.

Your Garden Club Reporter.
